# Inspire Learning. Unlock Potential. Empower Achievement.

December 1, 2014

Barry Buchholz, President, Members of the Board of Education, and the Citizens of Linn-Mar Community School District Marion, Iowa

We are proud to submit to you the Comprehensive Annual Financial Report of the Linn-Mar Community School District for the year ending June 30, 2014. This report has been prepared to conform to the guidelines recommended by the Association of School Business Officials International.

# MANAGEMENT RESPONSIBILITY

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed information is fairly stated in all material respects and is presented in a manner which sets forth the financial position and results of the operations of the governmental activities, business-type activities, each major fund and aggregate of the remaining funds of the District in accordance with generally accepted accounting principles, (GAAP). It includes all funds of the entire District. The District is not included in any other reporting entity, nor are other entities included within this report. All disclosures necessary to enable a reader to gain maximum understanding of the District's financial activities have been included.

### CAFR

The 2014 Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical and Internal Controls and Compliance.

*Introductory Section-* This section includes a transmittal letter, economic outlook of the community, the District's accomplishments, the Certificate of Excellence in Financial Reporting for the year ended June 30, 2013, the District's Team Leadership Network and a list of the Board of Directors and District Officials.

*Financial Section-* The School District's financial statements and schedules are presented in accordance with the financial reporting pyramid set forth by the Governmental Accounting Standards Board. This section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), audited basic financial statements, required supplementary information, and combining and individual fund statements and schedules. The audited basic financial statements provide both an overview and a

broad long-term perspective of the School District as a whole in the government-wide financial statements. The MD&A is provided by management as a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

*Statistical Section*- This section includes selective financial, economic and demographic information, generally presented on a multi-year basis for comparison.

*Compliance Section-* This section includes audit reports relating to the Board's single audit over internal control, federal and state awards, Schedule of Expenditures of Federal and State Awards.

### Linn-Mar Community School District

This report includes all funds of the Linn-Mar Community School District. The District provides a full range of services including instructional, administrative, transportation, food service, maintenance of sites and facilities, clerical and extra- and co-curricular activities.

The District is governed by a seven-member elected Board of Education. During the 2008 legislative session, a bill was passed that changed the board terms from three years to four years and requires school elections to be held in September of odd numbered years, beginning in September 2009. The Board of Directors is a policy-making and planning body whose decisions are carried out by school administrators.

The Linn-Mar Community School District is located in Linn County in east central Iowa. The District includes portions of Cities of Cedar Rapids, Marion and Robins, as well as unincorporated land in northern Linn County. The District originated in 1948 as Marion Rural Independent School District, and became the Marion Rural Community School District under the Community School Reorganization Act adopted in 1955. It operated under this name from 1955 to 1963 when its name was changed to Linn-Mar Community School District. The District is currently the 12<sup>th</sup> largest of Iowa's 346 public school systems. The certified enrollment taken on the October 1, 2013 was approximately 6,943 students. The District operates one high school, two middle schools, seven elementary schools, an alternative High School Program, a special education transition program, a home school assistance program and an early childhood preschool program. The District provides a full range of educational services appropriate to students in early childhood and preschool through grade twelve. These services include basic, regular and enriched academic education; special education for children with special needs; vocational-technical education; and numerous individualized programs such as specialized instruction for students at-risk and for limited English speaking students.

In addition to a strong PK-12 educational program, the District works with Kirkwood Community College to offer courses for qualified high school students and a community education program for adult learners.

The District is supported financially by state aid, property taxes, state and federal grants for special projects, local revenue received for tuition and other services, and a state-wide one percent sales tax.

#### **Economic Condition and Outlook**

Linn-Mar Community School District is located in the Cedar Rapids Metropolitan Service Area (MSA). The District covers 64 square miles and encompasses the north part of the city of Marion and the NE portion of city of Cedar Rapids. The Cedar Rapids Metropolitan Service Area is home to numerous Fortune 500 companies, two of which are located within Linn-Mar's District boundaries.

Rockwell Collins, a Fortune 500 company, is the largest employer, not only in the Linn-Mar District, but in the Cedar Rapids metro area. Rockwell Collins produces advanced communications and aviation electronics for both government and commercial customers. The company is a leading supplier of commercial and military aviation electronics and communications systems.

Rockwell Collins currently employs approximately 9,000 people in the Cedar Rapids / Iowa City Corridor and continues to expand their facilities throughout the Cedar Rapids Community. Rockwell Collins has been and will continue to have the state's largest technical workforce. The company also prides itself in the partnerships they have established with the local school districts in the area.

The District's facilities are in average-to-good condition. The oldest building, which opened in 1948 and has several additions, was repurposed in 2010 to house the central administrative offices, the district's alternative HS program, and the district's home school assistance program. Four facilities were initially built between 1959 and 1968. Each has had several additions over the years. The five remaining school sites were built between 1995 and 2010. The Transportation and Operations & Maintenance facility was completed in 2010. In 2013, construction was completed on the district's Aquatic Center.

The financial solvency ratio of the District measures movement and distribution of current assets. The financial solvency ratio represents a school district's year end position after payment of all current and outstanding or accrued liabilities. After a declining solvency ratio for several years, the ratio leveled out to around 5% for three consecutive years, 2006-2008; and then steadily increased to a peak of 15.83% in fiscal year 2012. In fiscal years 2013 and 2014, the solvency ratio decreased slightly to 15.27% and 13.68% respectively. The current solvency ratio of 13.68% is within the target range of 5% to 15% as defined by the Iowa Association of School Boards. The State set the supplemental state aid growth rate at 4% for the 2015 fiscal year. However, future supplemental state aid beyond fiscal year 2015 is not known. Despite this unknown, Linn-Mar continues to realize steady enrollment growth and it is anticipated that the District solvency ratio and unspent balance ratio will continue to be within or exceed the target range of 5% to 15%.

Linn-Mar continues to see steady residential growth. In the City of Marion during the 2013 calendar year, 184 new single-family dwelling building permits were issued at a valuation of \$22,646,922 and 12 new multi-family dwelling unit permits were issued at a valuation of \$3,713,484.

#### **District Major Initiative and Achievements**

The staff, board, students, and community members are to be commended for making the 2013-2014 school year a very productive one. Some of the many accomplishments for the year include:

• Through a very competitive application process, Linn-Mar was one of thirty-eight school districts awarded a Teacher Leadership and Compensation Grant from the State of Iowa. The goals of this \$2.1 million grant include:

- Attract able and promising new teachers by offering competitive starting salaries and offering short-term and long-term professional development and leadership opportunities.
- o Retain effective teachers by providing enhanced career opportunities.
- Promote collaboration by developing and supporting opportunities for teachers in schools and school districts statewide to learn from each other.
- Reward professional growth and effective teaching by providing pathways for career opportunities that come with increased leadership responsibilities and involve increased compensation.
- Improve student achievement by strengthening instruction.
- The District completed construction on a new multi-million dollar aquatic center. This yearround facility serves all Linn-Mar students through organized programs and classes such as voluntary swim lessons, fourth grade swim experience, middle school swim experience, high school physical education courses, lifeguard training courses, swim experience for special education students, and competitive swim teams at both the middle school and high school levels.
- Many staff members received local, regional, state and national recognition from various professional and community organizations for their dedicated work in educating our youth.
- The recording of approximately 22,670 volunteer hours with over 639 volunteers in the District. Volunteers enhance our students' learning by acting as tutors, reading to kindergarten classrooms, assisting teachers in their classrooms or on field trips, or serving on committees. Last year, 69 volunteers gave more than 100 hours each to our schools.
- The District was recognized for its continued excellence in financial reporting with the receipt of the District's tenth consecutive Certificate of Excellence in Financial Reporting award for the 2012-2013 Comprehensive Annual Financial Report (CAFR.)

All of the dedicated work that went into these initiatives and achievements had one main focus: supporting the learning of the District's students. For the 2013-2014 school year, the students, as a group, continued to perform at a high level. Following are a few indicators:

- Student achievement exceeded the primary goal of one year of growth for each grade span in reading, math and science as measured on ITBS standardize test.
- Students in grades 5-8 met or exceeded their target growth on the NWEA MAP mathematics test.
- On the ITBS and ITED assessments, the students out-performed the state and nation in the content areas of reading, math, and science, continuing a multi-year tradition.

- Linn-Mar students continue to score higher than both the state and national averages of student that complete the ACT assessment. The 2013-2014 Linn-Mar Community School District composite ACT score was 24.5 compared to 22.0 for the state and 21 national composite scores with a 76% participation rate.
- Several individual students or teams received state and/or national recognition in a variety of academic, extra-curricular and co-curricular competitions. The composite average of the 581 advanced placement tests taken by Linn-Mar students during 2013-14 was 3.85, compared to the state average of 2.97 and national average of 2.87.

### **Financial Information**

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved the District's governing body. Activities of the General Fund, Special Revenue Funds, Enterprise Fund, Debt Service Fund and Capital Projects Fund are included in the annual budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the budgeted amount) is established by function and encompasses all fund types. To facilitate the monitoring of the legal provisions, and to provide more complete information to interested parties the District prepares a more detailed budget for each fund. The following information reflects the comprehensive budget for these individual funds rather than demonstrating compliance at the legal level. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

#### **Independent Audit**

State law and District policy require an annual audit to be made of the books of account, financial records and transactions of all funds of the District by a Certified Public Accountant selected by the Board of Directors of the District. The District has complied with this requirement. The report of the District's independent accountants, Nolte, Cornman and Johnson, P.C., appears in this report. Their audit of the basic financial statements was performed in accordance with auditing standards generally accepted in the United State of America and, accordingly, included a review of the District's system of budgetary and accounting controls.

#### Certificate of Excellence in Financial Reporting

The Association of School Business Officials International (ASBO), awards a Certificate of Excellence in Financial Reporting. This certificate is a prestigious national award recognizing conformance with the highest standards for preparation of government financial reports.

In order to be eligible to receive the Certificate, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, (CAFR) whose contents conform to program standards. Such CAFR must satisfy both Generally Accepted Accounting Principles and applicable legal requirements.

This Certificate is valid for a period of one year only. The District believes that the current CAFR conforms to the requirements for the Certificate of Excellence and therefore, is submitting to ASBO to determine its eligibility for the Certificate.

#### Acknowledgements

The publication of this report is a major step toward the commitment to professionalism in financial reporting and significantly increases the accountability of the District to the taxpayers. This would not have been possible without the help of several people. We would like to express our appreciation to all District, City and County employees who assisted in the preparation of this report.

Finally, sincere appreciation is extended to the Board of Education, where commitment to excellence begins. It is with great pleasure that this year's Comprehensive Annual Financial Report is submitted to the Board of Education.

#### INDEPENDENT AUDITOR'S REPORT

To the Board of Education Linn-Mar Community School District Marion, Iowa

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Linn-Mar Community School District, Marion, Iowa as of and for the year ended June 30, 2014, and the related Notes to the Financial Statements, which collectively comprise the District's basic financial statements listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the propose of expressing an opinion of the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of account policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of the Linn-Mar Community School District as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with U.S. generally accepted accounting principles.

#### **Other Matters**

#### Required Supplementary Information

U.S. generally accepted accounting principles require Management's Discussion and Analysis, the Budgetary Comparison Information and the Schedule of Funding Progress for the Retiree Health Plan on pages 13 through 23 and 52 through 54 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. generally accepted auditing standards, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information and Statistical Section

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Linn-Mar Community School District's basic financial statements. The combining and individual fund financial statements and schedules, including the Schedule of Expenditures of Federal Awards required by the U.S. Office of Management and Budget (OMB) Circular A-133, <u>Audits of States</u>, <u>Local Governments</u>, and <u>Non-Profit Organizations</u>, listed in the table of contents under the single audit section, are presented for purposes of additional analysis and are not a required part of the basic financial statements of the Linn-Mar Community School District.

The supplementary information contained in this report is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements take as a whole.

The statistical section, as listed in the table of contents, is the responsibility of management and is presented for purposes of additional analysis and is not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in our audit of the basic financial statements and, accordingly, we express no opinion on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated December 1, 2014 on our consideration of Linn-Mar Community School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering Linn-Mar Community School District's internal control over financial reporting and compliance.

# **Management Discussion and Analysis**

This section of the Linn-Mar Community School District's Comprehensive Annual Financial Report presents its "discussion and analysis" of the District's financial performance during the fiscal year ending June 30, 2014. The analysis focuses on the District's financial performance as a whole. Please read it in conjunction with the District's financial statements, which immediately follow this section.

# **Financial Highlights**

- The District's total net position for governmental activities was \$69,548,552 at June 30, 2014 compared to \$65,090,386 at June 30, 2013, an increase of 6.85%.
- At the end of the current fiscal year, the total of assigned and unassigned fund balances in the general fund was \$9,282,580 or 13.68% of total general fund revenues compared to prior year's total balance of \$9,955,659 or 15.27% of total general fund revenues.

# **Overview of the Financial Statements**

The audited financial statements of the District consist of three components, which are the following:

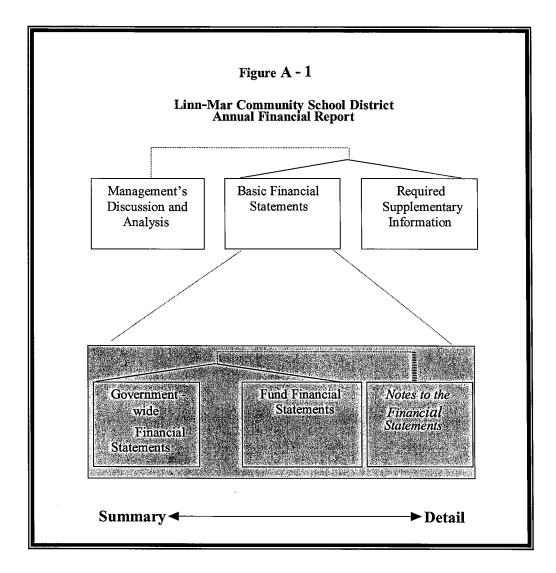

- Management Discussion and Analysis
- Basic Financial Statements, which include government-wide financial statements, fund financial statements and notes to the financial statements
- Required supplemental section that represents individual statements and schedules

The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *Government-wide financial statements* that provide both *short-term* and *long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in *more detail* than the Government-wide statements.
- The governmental funds statements show how basic services such as regular and special education were financed in the *short term* as well as what remains for future spending.
- *Proprietary funds* statements offer *short* and *long-term* financial information about the activities the District operates *like businesses*, such as food services.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the financial statements with a comparison of the District's budget for the year.

Figure A-1 shows how the various parts of this annual report are arranged and related to one another.

14

**Figure A-2** summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

# **Government - Wide Financial Statements**

	Government-wide	Fund Statements			
	Statements	Governmental Funds	Proprietary Funds		
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: food services and adult education		
Required financial statements	• Statement of net position	Balance sheet	• Statement of net position		
	• Statement of activities	• Statement of revenues, expenditures, and changes in fund balances	<ul> <li>Statement of revenues, expenses and changes in fund net position</li> <li>Statement of cash flows</li> </ul>		
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus		
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long- term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term		
Type of inflow/ outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid		

The Government-wide statements report information about the District as a whole using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the Statement of Activities regardless of when cash is received or paid.

The two Government-wide statements report the District's *net position* and how they have changed. Net position is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school buildings and other facilities.

In the Government-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities:* Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.
- *Business type activities*: The District charges fees to help it cover the costs of certain services it provides. The District's food service program would be included here.

# **Fund Financial Statements**

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds - not the district as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, (such as repaying its long-term debts) or to show that it is properly using certain revenues, (such as federal grants).

The District has two kinds of funds:

- Governmental funds: Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the Government-wide statements, additional information at the bottom of the governmental funds statements explains the relationship (or differences) between them.
- Proprietary funds: Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the Government-wide statements. The District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities but provide more detail and additional information, such as cash flows.

# Financial Analysis of the District as a Whole

Net position is an indicator of the fiscal health of the District. The District's net position grew by 6.88% increasing from \$66.73 million at June 30, 2013 to \$71.32 million at June 30, 2014. (See Figure A-3).

Net investment in capital assets, such as land, buildings, machinery and equipment, less any outstanding debt used to acquire those assets is \$41.82 million. These assets are considered non-spendable since they represent capital assets used to provide services to students. The resources needed to pay the obligations from the debt related to these assets must be provided from other resources. \$21.07 million of net position has some external restrictions on how the funds may be used. The remaining balance of \$8.43 million represents unrestricted net position which may be used to meet the District's ongoing obligations.

As mentioned before, restricted net position represents resources that are subject to external restrictions such as enabling legislation or constitutional provisions. The District's restricted net position decreased \$8.18 million, or 27.97% over the prior year. The decrease in the District's restricted net position was due primarily to the decrease in fund balance for the Capital Projects: Statewide Sales, Services and Use Tax Fund.

Unrestricted net position is the assets that can be used to finance day-to-day operations without constraints established by debt restrictions, enabling legislation or other legal binding requirements. Unrestricted net position decreased \$0.16 million, or 1.86%. The decrease in unrestricted net position can be attributed in part to the decrease in fund balance of the General Fund.

Reconciliations between the government-wide financial statements and the fund financial statements follow the fund financial statements.

The following figure shows changes in net position for the year ended June 30, 2014 compared to the year ended June 30, 2013. (See Figure A-4).

#### Note: Amounts reported here may differ slightly from the amounts reported in the basic financial statements due to rounding.

In fiscal year 2014, property tax and unrestricted state grants accounted for 72.82 percent of governmental activities revenue while charges for service and operating grants, contributions and restricted interest accounted for all of business type activities revenue.

The District as a whole experienced a 4.35 percent increase in operating revenue while experiencing an 8.41 percent increase in expenses. The District's total revenue was approximately \$86.92 million of which \$83.66 million was for governmental activities, while the remaining \$3.26 million was for business type activities. Property taxes and unrestricted state grants account for most of the district's revenue, with each contributing approximately 36 percent and 34 percent respectively of the total dollars raised, (See Figure A-5).

The total cost for all programs and services increased 0.20 percent to \$82.33 million. The District's total expenditures are listed in Figure A-6. The chart shows that the majority of the District's expenditures (58.35%) are devoted to instruction and student and instructional services. Another .183 percent is spent on transporting students safely to and from school and on extra curricular events.

# **Governmental Activities**

Revenues for the district's governmental activities increased 4.22 percent, while expenses increased 8.43 percent. The increase in revenues can be attributed to the increase in statewide sales, services and use tax and unrestricted grant revenues received during fiscal year 2014 as compared to fiscal year 2013.

The District experienced a \$6.16 million increase in governmental activity expenditures, majority of which can be attributed to the increases in expenditures to repay the District's long-term debt and instructional expenditures to educate district students.

Figure A-7 presents the cost of four District activities: instruction, support services non-instructional programs and other expenses. The table shows each activity's *net cost*, (total costs less fees generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden placed on the District's taxpayers by each of these functions.

For the year ended June 30, 2014:

- The cost of all governmental activities this year was \$79.20 million.
- The cost financed by users of the District's programs was \$4.75 million.
- Federal and state governments subsidized certain programs with grants and contributions totaling \$10.87 million.
- The net cost of governmental activities was financed with \$30.94 million in property tax, \$5.98 million in statewide sales, services and use tax, \$29.98 million in unrestricted state grants and \$1.14 million in unrestricted interest and other income.

### **Business Type Activities**

Revenues of the District's business type activities increased by 7.59 percent to approximately \$3.26 million while expenses increased 7.93 percent to approximately \$3.13 million (Refer to Figure A-4). The School Nutrition Fund and the Aquatic Center Fund are the District's two business type activities. The revenues in these two funds can be broken down into three main categories; charges for services, federal and state reimbursements and investment income.

During the year ending June 30, 2014 the District's net position increased in the business type activities by approximately \$0.13 million or 7.93 percent.

#### **Financial Analysis of the District's Funds**

#### **Governmental Fund Highlights**

At the end of fiscal year 2014, the District's governmental funds reported combined ending fund balances of \$30,349,354, a decrease of approximately \$8.86 million in comparison with the prior year. A closer look at each individual governmental fund reveals the following:

- The General Fund balance decreased from \$11.66 million on June 30, 2013 to \$11.02 million on June 30, 2014. Although General Fund revenues increased from the prior year by \$2.73 million, General Fund expenditures increased by \$3.21 million to offset the increase in revenues and causing the fund balance to decrease.
- The Debt Service Fund balance increased slightly from \$3.21 million to \$3.48 million.

• The **Capital Projects Fund** balance decreased from \$21.45 million on June 30, 2013 to \$12.77 million on June 30, 2014. The decrease in overall Capital Projects Fund balance can be attributed to the completion of construction of the District's new Aquatic Center.

# **Business Type Fund Highlights**

This is the sixth year in a row that the District's business type revenues exceeded expenses. At the close of fiscal 2014, revenues exceeded expenditures by \$132,027. The steps taken by management to control costs by adjusting the staffing model, additional federal grant funds and managing the expenses has made a difference in the overall financial condition of the nutrition program and the operation of the district's new aquatic center.

# **Budgetary Highlights**

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds, except its private-purpose trust and agency funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared according to U.S. Generally Accepted Accounting Principles. Over the course of the year, the District amended its annual operating budget one time to reflect higher that expected costs associated expenditures in the other expenditures function.

A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report. Since the District does not adopt a budget for individual funds, budgets for the General Fund and major Special Revenue Funds are not presented in the budgetary comparison on page 52.

The District's total actual receipts were \$2,105,929 more than budgeted receipts, a variance of 2.48 percent. The main contributing factor to this variance had to do with the District receiving more in federal revenue than was originally estimated.

By April 15<sup>th</sup> of each year, the budget must be adopted by the Board of Directors for the fiscal year beginning July 1 through June 30, which immediately follows. Because there are a number of unknowns at that time, such as State revenue allocations, insurance premiums, negotiated employee contracts, enrollment increase, and construction project invoicing, the District has the ability to amend its budget before May 31<sup>st</sup> of each year. By monitoring the budget throughout the year, the District felt that a budget amendment was necessary due to the bond refinancing activities of the district during the year. The district adopted one budget amendment increasing expenditures in the other expenditures function by \$24,760,000.

# **Capital Asset Administration**

By the end of 2014, the District had invested, net of depreciation, \$129.686 million in various capital assets including land, buildings, vehicles and equipment (See Figure A-8). This amount represents a net increase of \$5.08 million or 4.07 percent over the previous fiscal year. Detailed information regarding the District's capital assets can be found in Note 6 of the notes to the basic financial statements.

# Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of two existing circumstances that could significantly affect its financial health in the future:

- The State has set allowable growth at 4 percent for fiscal year 2015. An allowable growth below 4 percent creates significant challenges for schools in Iowa to meet increasing expenditure demands.
- The District is expecting annual certified enrollment growth of at least 50 to 100 students for the next several years. Student enrollment is the primary driver of funding for Iowa schools and is crucial in the district's budget planning process.

# **Contacting the District's Financial Management**

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability of the money it receives. If you have questions about this report or need additional financial information, contact the office of the Chief Financial Officer/Treasurer, Linn-Mar Community School District, 2999 10<sup>th</sup> Street, Marion, Iowa 52302.

Net change in fund balances - total governmental funds(page 30)		\$	(8,861,211)
Amounts reported for governmental activities in the Statement of Activities are different because:			
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Capital outlay expenditures and depreciation expense in the current year are as follows: Capital outlay Depreciation expense Loss on asset disposal	\$       9,665,594 (4,475,568) (20,266)		5,169,760
Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position. Current year issuances and repayments are as follows: Issued Repaid	\$ (22,800,000) 		7,863,356
Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due.	ţ		197,403
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds. Termination benefits Compensated absences Other postemployment benefits	221,746 42,607 (175,495)		88,858

# NON-CASH INVESTING, CAPITAL AND FINANCING ACTIVITIES:

During the year ended June 30, 2014, the District received Federal commodities valued at \$208,020.

#### NOTES TO BASIC FINANCIAL STATEMENTS

#### June 30, 2014

#### Note 1. Summary of Significant Accounting Policies

The Linn-Mar Community School District is a political subdivision of the State of Iowa and operates public schools for children in grades kindergarten through twelve and special education prekindergarten. Additionally the District operates and sponsors various adult education programs. The geographic area served includes the City of Marion, Iowa, portions of the Cities of Robbins and Cedar Rapids and portions of the agricultural territory in Linn County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

#### A. <u>Reporting Entity</u>

For financial reporting purposes, Linn-Mar Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable, and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body, and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on the District. The Linn-Mar Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

<u>Jointly Governed Organizations</u> - The District participates in a jointly governed organization that provides services to the District but do not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Linn County Assessors' Conference Board.

#### B. Basis of Presentation

<u>Government-wide Financial Statements</u> - The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

*Net investment in capital assets* consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bonds, notes, and other debt that are attributed to the acquisition, construction, or improvement of those assets.

*Restricted net position* results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation.

Unrestricted net position consists of net position that does not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management, but can be removed or modified.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants, contributions and interest that are restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

<u>Fund Financial Statements</u> - Separate financial statements are provided for governmental, proprietary, and fiduciary funds, even though the latter are excluded from the Government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as other nonmajor governmental funds.

#### The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenses, including instructional, support and other costs. Combining schedules are also included for the Capital Project Fund accounts.

The Capital Projects Fund is utilized to account for all resources used in the acquisition and construction of capital facilities and other capital assets.

The Debt Service Fund is utilized to account for property tax and other revenues to be used for the payment of interest and principal on the District's general long-term debt.

#### The District reports the following nonmajor governmental funds:

The Special Revenue - Management Fund is utilized to account for the payment of property insurance as well as early retirement incentives.

The Special Revenue - Student Activity Fund is utilized to account for the various student run organizations and athletic accounts of the District.

The Special Revenue - Public Education and Recreation Levy Fund is utilized to account for the resources used to establish and maintain public recreation places and playgrounds and necessary accommodations for children and adults.

The District reports the following nonmajor proprietary funds:

One of the District's proprietary funds is the Enterprise, School Nutrition Fund. The School Nutrition Fund is used to account for the food service operations of the District.

The District's other proprietary fund is the Aquatic Center Fund. The Aquatic Center Fund is used to account for the operations of the District's pool activities.

#### C. Measurement Focus and Basis of Accounting

The government-wide and proprietary financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year end. Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net positions available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is generally to first apply the expenditure toward restricted fund balance and then to less restrictive classifications - assigned and then unassigned fund balances.

The proprietary fund enterprise fund of the District apply all applicable GASB pronouncements as well as the following pronouncements issued on or before November 30, 1989, unless these pronouncements conflict with or contradict GASB pronouncements: Financial Accounting Standards Board Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedure.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principle ongoing operations. The principle operating revenues of the District's enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

The District maintains its financial records on the accrual basis.

#### D. Cash, Pooled Investments and Cash Equivalents

The cash balance of most District funds are pooled and invested. Investments are stated at fair value except for the investments in the Iowa Schools Joint Investment Trust, which are valued at amortized cost and non-negotiable certificates of deposit which are stated at cost.

For purposes of the Statement of Cash Flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and at the day of purchase, they have a maturity date no longer than three months.

#### E. Property Taxes

Property taxes in Governmental Funds are accounted for using the modified accrual basis of accounting.

Property taxes revenue receivable is recognized in these funds on the levy date that the tax asking is certified by the Board of Education to the County Board of Supervisors. Current year delinquent property taxes receivable represents unpaid taxes from the current year. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the Board of Education is required to certify its budget to the County Auditor by April 15 of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded, the related revenue is deferred and will not be recorded as revenue until the year for which it is levied.

Property tax revenue recognized in these funds becomes due and collectible in September and March of the fiscal year with a 1<sup>1</sup>/<sub>2</sub>% per month penalty for delinquent payments; is based on January 1, 2012 assessed property valuations; is for the tax accrual period July 1, 2013 through June 30, 2014 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2013.

#### F. Inventories

The Enterprise, School Nutrition Fund inventories are accounted for using the consumption method by which inventory acquisitions are recorded in inventory accounts when purchased or received by other means and are charged to operations when consumed or sold. The enterprise fund inventory consists primarily of food, with purchased food recorded at the lower cost (first-in, first-out method), or market and food commodities which were received from the federal government and recorded at the contributed value as of the date received.

#### G. Capital Assets

Capital assets, which include property, machinery and equipment and intangibles, are reported in the applicable governmental or business type activities columns in the Government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at estimated fair market value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and estimated useful lives in excess of two years.

Assets	Amounts		
Land	\$	2,500	
Buildings		2,500	
Land improvements		2,500	
Intangibles		175,000	
Machinery and equipment:			
School Nutrition Fund equipment		500	
Other machinery and equipment		2,500	

Land is not depreciated. Buildings, land improvements, machinery and equipment and intangibles are depreciated/amortized using the straight line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives (In Years)
Buildings	50 years
Land improvements	20 years
Intangibles Machinery and equipment	5-20 years 5-20 years

#### H. Salaries and Benefits Payable

Payroll and related payroll taxes and benefits for teachers with annual contracts corresponding to the school year, but which have balances payable in July and August 2014, have been accrued as a liability as it is applicable to the fiscal year ended June 30, 2014.

#### I. Advances from Grantors

Grant proceeds which have been received by the District but will be spent in a succeeding year.

# J. Deferred Inflows of Resources

Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources consist of property tax receivable and other receivables not collected within sixty days after year end.

Deferred inflows of resources in the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied.

#### K. <u>Unearned Revenue</u>

Unearned revenues are monies collected for lunches that have not yet been served. The lunch account balances will either be reimbursed or served lunches. The lunch account balances are reflected on the Statement of Net Position in the Proprietary, School Nutrition Fund.

#### L. Compensated Absences

District employees accumulate a limited amount of earned but unused vacation benefits payable to employees. Compensated absences are reported in governmental funds only if they have matured. The cost of vacation payments expected to be liquidated currently is recorded as a long-term liability on the Statement of Net Position and will be paid in the future primarily from the General Fund. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2014. Thirty percent of the full balance is shown as due within a year using first-in, first-out basis while the other seventy percent is shown as due longer than one year.

#### M. Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

#### N. Fund Balances

In the governmental fund financial statements, fund balances are classified as follows:

<u>Restricted</u> - Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

<u>Assigned</u> - Amounts are not available for appropriation but are set aside for specific purposes in the District's General Fund. The District's Board of Directors authorizes the Chief Executive Officer to assign General Fund balance amounts pursuant to Board Policy 801.4.

<u>Unassigned</u> - All amounts not included in other spendable classifications. It is only to be used for residual amounts in the General Fund or for deficit balances in other governmental funds.

#### O. <u>Restricted Net Position</u>

In the Government-wide Statement of Net Position, net position is reported as restricted when constraints placed on net position use are either externally imposed by creditors, grantors, contributors or laws and regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Net position restricted through enabling legislation consists of \$1,739,691 for categorical funding, \$5,531,906 for school infrastructure, \$2,093,890 for management levy purposes, \$2,422,187 for physical plant and equipment levy, \$572,778 for student activities and \$417,428 for public education and recreation levy. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net positions are available.

#### Note 2. Budgets and Budgetary Accounting

In accordance with the Code of Iowa, the District's Board of Education annually adopts a single district-wide budget and approves the related appropriations following required public notice and hearing for all funds. The budgets and related appropriations as well as the financial statements are prepared on the modified accrual basis or accrual basis of accounting. The budget may be amended during the year utilizing similar statutorily prescribed procedures.

Formal and legal budgetary control for the certified budget is based upon four major classes of disbursements known as functional areas, not by fund. These four functional areas are instruction, support services, non-instructional programs and other expenditures. The Code of Iowa also provides that District disbursements in the General Fund may not exceed the amount authorized by the school finance formula.

The Board of Education follows these procedures in establishing budgetary data reflected in the financial statements:

- 1. In accordance with the Statutes of the State of Iowa, prior to March 15, the Board Secretary submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures or expenses and the means of financing them for the upcoming year, along with estimates for the current year and actual data for the preceding years. This budget is submitted in summary form, with an administrative control. The legal level of control for the detailed budget is at the functional area level.
- 2. Public hearings are required to be conducted to obtain taxpayer comment.
- 3. Prior to April 15, the budget is legally enacted through certification by the County Auditor.
- 4. Management is authorized to transfer budgeted amounts between departments within any functional area; however, any revisions that alter the total expenditures or expenses of any functional area must be approved by the Board of Education.
- 5. The Board of Education may amend the budget during the year by holding public hearings and certifying the amendment with the County Auditor.
- 6. Appropriations lapse at the end of each fiscal year.
- 7. The budget cannot be amended without the approval of the Board of Education.
- 8. Unexpended budgetary balances lapse at June 30 and are not available to finance expenditures or expenses of the following year.

#### Note 3. Deposits and Pooled Investments

The District's deposits in banks at June 30, 2014 were entirely covered by federal depository insurance or by the State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This chapter provides for additional assessments against the depositories to insure there will be no loss of public funds.

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit and other evidence of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

As of June 30, 2014, the carrying amount of the District's bank deposits and pooled investments totaled \$38,686,020 with bank balances of \$38,702,979. These amounts are included in the cash and pooled investments on the Statement of Net Position. Of the bank balance, \$1,000,000 was covered by federal depository insurance and \$37,702,979 was covered by a multiple financial institution collateral pool that provided for additional assessments against members of the pool. At June 30, 2014, the District had no investments.

Interest rate risk. The District's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and use of the District and must also conform to any loan covenant investment maturity restrictions. The maturity of the District's position in an external investment pool is based on the average maturity of the pool's investments.

Credit risk. The District's policy relating to credit risk of investments is to have the majority of the District's bank deposits with an AAA/Aaa rated national banking company (by Standard & Poors and Moody's Investors Services).

Custodial credit risk for deposits. Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. It is the District's policy to require that time deposits in excess of FDIC insurable limits (\$250,000) be secured by collateral or private insurance to protect public deposits in a single financial institution if it were to default. Chapter 12C of the Code of Iowa requires all District funds be deposited into an approved depository and be either insured or collateralized.

#### Note 4. Interfund Transfers

Transfer to	Transfer from	 Amount
Debt Service	Capital Projects: Statewide Sales, Services & Use Tax	\$ 7,102,227
Debt Service	Capital Projects: Physical Plant & Equipment Levy	58,095
Capital Projects: Other Construction Projects Total	Capital Projects: Statewide Sales, Services & Use Tax	 8,939,191 16,099,513

The detail of interfund transfers for the year ended June 30, 2014 is as follows:

The transfer from the Capital Projects: Statewide Sales, Services and Use Tax Fund to the Debt Service Fund was needed for repayment of principal and interest on the District's revenue bond indebtedness.

The transfer from the Capital Projects: Physical Plant & Equipment Levy Fund to the Debt Service Fund was needed for principal and interest payments on the District's bus lease indebtedness.

The transfer from the Capital Projects: Statewide Sales, Services & Use Tax Fund to the Capital Projects: Other Construction Projects Fund was needed to move proceeds of the June 4, 2013 revenue bond issuance.

#### Note 5. Due From and Due to Other Funds

Receivable Fund Payable Fund		Amount

A summary of changes in general long-term debt for the year ended June 30, 2014:

# **General Obligation Bonds**

As of June 30, 2014, the District had general obligation bonds outstanding of \$38,805,000, which had been issued for capital facility construction. The general obligation bonds will be paid with property taxes collected in the Debt Service Fund. Details of the District's June 30, 2014 general obligation bonded indebtedness are as follows:

The District has pledged future statewide sales, services and use tax revenues to repay the bonds issued in March of 2010, October of 2012, June of 2013, June of 2013, February of 2014 and March of 2014. The bonds were issued for the purpose of financing a portion of the costs of several ongoing projects. The bonds are payable solely from the proceeds of the statewide sales, services, and use tax revenues received by the District and are payable through 2030. The bonds are not general obligations of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require nearly 76 percent of the statewide sales, services, and use tax revenues. The total principal and interest remaining to be paid on the bonds is \$62,845,804. For the current year, \$2,710,000 of principal and \$855,871 of interest was paid on the bonds and total statewide sales, services and use tax revenues were \$5,979,539.

The resolutions providing for the issuance of the statewide sales, services and use tax revenue bonds include the following provisions:

- \$4,811,584 of the proceeds from the issuance of revenue bonds shall be deposited in reserve accounts at Farmer's State Bank, Marion, Iowa and Ohnward Bank & Trust, Cascade, Iowa to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available.
- 2) All proceeds from the statewide sales, services and use tax will be retained by the District in District bank accounts and be disbursed to the proper paying agents at the time principal and interest payments are due.

#### School Bus Leases

During the year ended June 30, 2010, the District entered into capital lease purchase agreement of \$314,228 for the lease purchase of four school buses. The school bus leases are payable from the Capital Projects: Physical Plant and Equipment Levy Fund. Details of the District's indebtedness under the agreement in effect at June 30, 2014 are as follows:

Year			Bus	lease of Augu	ıst 1, 2009	
Ending June 30,	Interest Rates			Principal	Interest	Total
2015	4.346	%	\$	55,675	2,419	58,094

These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the gross amount of assets acquired on the inception date.

The assets acquired through capital bus leases and the corresponding depreciation/amortization, on a closed basis, taken during the year is as follows:

Asset	Ċ	overnmental Activities
Machinery and equipment	\$	314,228
Less: Accumulated depreciation/amortization		(194,756) *
-	\$	119,472

\* \$4,738 of amortization expense is included in the depreciation amount.

#### **Debt Margin Computation**

The June 30, 2014 debt issued by the District did not exceed its legal debt margin computed as follows:

Total assessed valuation	\$ 2,915,115,013
Debt limit, 5% of total assessed valuation Amount of debt applicable to debt limit,	\$ 145,755,751
total bonded debt	87,865,675
Excess of debt limit over bonded debt	\$ 57,890,076

#### **Termination Benefits**

The District offered a voluntary early retirement plan to its certified employees and administrators during the year ended June 30, 2013. Eligible employees had to be at least age fifty-five and employees must have completed twenty years of service to the District. Employees completed an application which was required to be approved by the Board of Education.

The early retirement incentive for each eligible employee was equal to the employee's base salary calculated by using the fiscal year 2013 regular salary schedule, less any other additional pay, multiplied by 50 percent (60 percent for administrators), plus all unused personal days compensated for at the rate of substitute pay used during the last year of service. Employees could also elect to continue participation in the District's group health insurance plan until age 65 or until insurance is acquired elsewhere. Their participation was at the employee's expense with the exception that any unused personal days of separation compensation may be used to cover the cost of premiums.

At June 30, 2014, the District paid obligations to eight participants with a total amount of \$221,746. Actual early retirement expenditures for the year ended June 30, 2014 were recorded as expenditures in the Nonmajor Special Revenue: Management Levy Fund.

#### Note 8. Other Postemployment Benefits(OPEB)

<u>Plan Description</u> - The District participates in an agent multiple-employer health care plan called the Metro Interagency Insurance Plan (MIIP). This plan provides medical and prescription drug benefits for eligible employees and retirees and their spouses. There are 441 active and 41 retired members in the plan. Participants must be age 55 or older at retirement. The plan issues financial statements and required supplementary information which are available in a report publicly available through request at the Metro Interagency Insurance Program at 1120 33rd Avenue SW, Cedar Rapids, Iowa 52404.

The medical/prescription drug coverage is provided through a self-insured 28E organization plan with Metro Interagency Insurance Program. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees, which results in an implicit subsidy and an OPEB liability.

<u>Funding Policy</u> - The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis. Liabilities of the District's OPEB are paid primarily from the General Fund.

<u>Annual OPEB Cost and Net OPEB Obligation</u> - The District's annual OPEB cost is calculated based on the annual required contribution (ARC) of the District, an amount actuarially determined in accordance with GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed 30 years.

The following table shows the components of the District's annual OPEB cost for the year ended June 30, 2014, the amount actually contributed to the plan and changes in the District's net OPEB obligation:

Annual required contribution	\$ 293,467
Interest on net OPEB obligation	18,354
Adjustment to annual required contribution	 (57,179)
Annual OPEB cost	 254,642
Contributions made	 (54,814)
Increase in net OPEB obligation	 199,828
Net OPEB obligation beginning of year	734,178
Net OPEB obligation end of year	\$ 934,006

For calculation of the net OPEB obligation, the actuary has set the transition day as July 1, 2008. The end of year net OPEB obligation was calculated by the actuary as the cumulative difference between the actuarially determined funding requirements and the actual contributions for the year ended June 30, 2014.

For the year ended June 30, 2014, the District contributed \$54,814 to the medical plan. Plan members eligible for benefits contributed \$0, or 0% of the premium costs.

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan
and the net OPEB obligation as of June 30, 2014 are summarized as follows:

Year Ended June 30,	 Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	 Net OPEB Obligation
2012 2013 2014	\$ 22,354 261,078 254,642	221.3 % 18.4 21.5	\$ 521,086 734,178 934,006

*Funded Status and Funding Progress* - As of July 1, 2013, the most recent actuarial valuation date for the period July 1, 2013 through June 30, 2014, the actuarial accrued liability was \$1,910,923, with no actuarial value of assets, resulting in an unfunded actuarial accrued liability (UAAL) of \$1,910,923. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$29,466,220 and the ratio of the UAAL to covered payroll was 6.5%. As of June 30, 2014, there were no trust fund assets.

<u>Actuarial Methods and Assumptions</u> - Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the health care cost trend. Actuarially determined amounts are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information in the section following the Notes to Financial Statements, will present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the plan as understood by the employer and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

As of the July 1, 2013 actuarial valuation date, the unit credit actuarial cost method was used. The actuarial assumptions include a 2.5% discount rate based on the District's funding policy. The projected annual medical trend rate is 6%. The ultimate medical trend rate is 3.5%. The UAAL is being amortized as a level percentage of projected payroll on an open basis. The remaining amortization period at June 30, 2014 was 29 years.

Mortality rates are from the 94 Group Annuity Mortality Table (Projected to 2000), applied on a 2/3 female, 1/3 male basis. Annual retirement probabilities were developed based upon recent Linn-Mar Community School District experience. Termination probabilities were based upon national termination studies performed by the Society of Actuaries and were adjusted to reflect the recent lower termination rates experienced by Linn-Mar Community School District.

#### Note 9. Risk Management

<u>Health insurance</u> - Six public education entities are currently participating in a 28E organization which was established in 1990 to provide a self-insurance plan for employee medical coverage. The Districts contribute to the self-insurance plan an amount equal to 125% of Wellmark Blue Cross/Blue Shield projections of the rating period. The fund reinsures for stop-loss insurance for claims in excess of \$200,000 per year per individual. An insurance carrier is paid an administrative fee to process the claims.

The total premium paid into the plan by all six members from July 1, 2013 to June 30, 2014 was \$30,536,288, of which \$4,314,164 was paid by Linn-Mar Community School District.

In addition, the District is exposed to various risks of loss related to torts, theft, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. These risks are covered by the purchase of commercial insurance. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past four fiscal years.

#### Note 10. Pension and Retirement Benefits

Linn-Mar Community School District contributes to the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer defined benefit pension plan administered by the State of Iowa. IPERS provides retirement and death benefits which are established by State statute to plan members and beneficiaries. IPERS issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to IPERS, P.O. Box 9117, Des Moines, Iowa, 50306-9117.

Plan members are required to contribute 5.95% of their annual covered salary and the District is required to contribute 8.93% of annual covered salary for the year ended June 30, 2014. Plan members are required to contribute 5.78% of their annual covered salary and the District is required to contribute 8.67% of annual covered salary for the year ended June 30, 2013. Plan members are required to contribute 5.38% of their annual covered salary and the District is required to contribute 5.38% of their annual covered salary and the District is required to contribute 8.07% of annual covered salary and the District is required to contribute 8.07% of annual covered salary for the year ended June 30, 2012. Contribution requirements are established by State statute. The District's contribution to IPERS for the years ended June 30, 2014, 2013 and 2012 were \$4,029,326, \$3,806,084 and \$3,411,978 respectively, equal to the required contributions for each year. The District is a participating employer in the Iowa Public Employees Retirement System (IPERS) which is a cost-sharing multiple-employer public employees retirement system designed as a supplement to Social Security.

According to terms of the agreement, Hand In Hand Daycare will pay the District \$2,547 per month commencing on September 1, 2013 through January 1, 2014. Hand In Hand Daycare has the option to extend the agreement through May 31, 2014 with the same terms.

#### Note 17. Prospective Accounting Change

The Governmental Accounting Standards Board has issued Statement No. 68, <u>Accounting and</u> <u>Financial Reporting for Pensions - an Amendment to GASB No. 27</u>. This statement will be implemented for the fiscal year ending June 30, 2015. The revised requirements establish new financial reporting requirements for state and local governments which provide their employees with pension benefits, including additional note disclosures and required supplementary information. In addition, the Statement of Net Position is expected to include a significant liability for the government's proportionate share of the employee pension plan.

# LINN-MAR COMMUNITY SCHOOL DISTRICT NOTES TO REQUIRED SUPPLEMENTARY INFORMATION - BUDGETARY REPORTING YEAR ENDED JUNE 30, 2014

This budgetary comparison is presented as Required Supplementary Information in accordance with <u>Government Accounting Standards Board</u> Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except Private Purpose Trust and Agency Funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the GAAP basis. Encumbrances are not recognized on the GAAP basis budget and appropriations lapse at year end.

Formal and legal budgetary control for the certified budget is based upon four major classes of expenditures known as functional areas, not by fund or fund type. These four functional areas are instruction, support services, non-instructional programs and other expenditures. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. During the year ended June 30, 2014, the District adopted one budget amendment, increasing budgeted expenditures by \$24,760,000 as a result of the four bond refundings mentioned in Note 15 of the Basic Financial Statements.

In February 2007, the patrons of Linn County passed the Local Option Sales Tax. During the 2008 legislative Note: session, the Iowa Legislature passed a 1% statewide sales, services and use tax that replaced the local option sales tax.

District implemented GASB Statement No. 63 during fiscal year 2013. Note: Prior to fiscal year 2013, the term "net assets" was used rather than "net position".

Notes: \* restricted fund balances have fluctuated over the past ten years due to the state of Iowa's view on how categorical funds could be spent. Pre 9-11 era, the state of Iowa required schools to reserve any unspent categorical funds. Since then, they have opened the door somewhat and allowed schools to spend some of the categorical funds to support general programming, thus the drop off of reserved balances in 2003. In 2004 and on, the District has reserved funds for state categorical funds, debt retirement, and construction of new facilities

\*\* Designated General Fund balances in years prior to 2011 has been reclassified as assigned due to the implementation of Governmental Accounting Standards Board Statement 54, based on documentation showing the purpose of the designations

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outsanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping governement.

\* The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

### FINANCIAL SOLVENCY RATIO Last Ten Fiscal Years

\* Financial Solvency Ratio = <u>Unassigned & Assigned General Fund Balance</u> Actual Revenues

The financial solvency ratio measures movement and distribution of current assets. The financial solvency ratio represents a school district's year end position after payment of all current and outstanding or accrued liabilities.

Ranges utilized are:

#### TARGETED SOLVENCY POSITION:

Financial Solvency Ratio ranging from 5% to 10% of actual revenues. A school district is able to meet unforseen financing requirements and presents a sound risk for the timely repayment of short-term obligations.

#### ACCEPTABLE SOLVENCY POSITION:

Financial Solvency Ratio ranging from 0% to 4.99% of actual revenues. Fund balance is considerd adequte for short-term credit purposes as long as other local economic trends, such as property tax collections and enrollment are sound.

#### SOLVENCY ALERT:

A solvency alert exists if the school corporation has a negative solvency ratio up to -3.0% of actual revenues. A negative solvency position in this range warrants prompt management response but could be caused by operating revenue/expenditure fluctuations within one budget year.

#### SOLVENCY CONCERN:

A solvency concern exists if the school corporation has a negative solvency ratio in excess of -3.0% of actual revenues.

#### Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Education of Linn-Mar Community School District:

We have audited in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in <u>Governmental Auditing Standards</u>, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business type activities, each major fund and the aggregate remaining fund information of Linn-Mar Community School District as of and for the year ended June 30, 2014, and the related notes to financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated December 1, 2014.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Linn-Mar Community School District's internal control over financial reporting to determine the audit procedures appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Linn-Mar Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Linn-Mar Community School District's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying Schedule of Findings and Questioned Costs, we identified deficiencies in internal control over financial reporting that we consider to be significant deficiencies.

A significant deficiency is a deficiency, or a combination of deficiencies, in internal control which is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in Part II of the accompanying Schedule of Findings and Questioned Costs as items II-A-14 and II-B-14 to be significant deficiencies.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Linn-Mar Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, non-compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under <u>Government Auditing Standards</u>. However, we noted certain immaterial instances of non-compliance or other matters that are described in Part IV of the accompanying Schedule of Findings and Questioned Costs.

Comments involving statutory and other legal matters about the District's operations for the year ended June 30, 2014 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

#### Linn-Mar Community School District's Responses to Findings

Linn-Mar Community School District's responses to findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. Linn-Mar Community School District's responses were not subjected to the auditing procedures applied in the audit or the financial statements and, accordingly, we express no opinion on them.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

We would like to acknowledge the many courtesies and assistance extended to us by personnel of Linn-Mar Community School District during the course of our audit. Should you have any questions concerning any of the above matters, we shall be pleased to discuss them with you at your convenience.

#### Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control Over Compliance Required by OMB Circular A-133

To the Board of Education of Linn-Mar Community School District:

#### **Report on Compliance for Each Major Federal Program**

We have audited Linn-Mar Community School District's compliance with the types of compliance requirements described in U.S. Office of Management and Budget (OMB) Circular A-133 <u>Compliance Supplement</u> that could have a direct and material effect on each of Linn-Mar Community School District's major federal programs for the year ended June 30, 2014. Linn-Mar Community School District's major federal programs are identified in Part I of the accompanying Schedule of Findings and Questioned Costs.

#### **Management's Responsibility**

Management is responsible for compliance with the requirements of laws, regulations, contracts and grant agreements applicable to its federal programs.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for each of Linn-Mar Community School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with U.S. generally accepted auditing standards, the standards applicable to financial audits contained in <u>Government Auditing</u> <u>Standards</u>, issued by the Comptroller General of the United States, and OMB Circular A-133, <u>Audits of</u> <u>States, Local Governments, and Non-Profit Organizations</u>. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Linn-Mar Community School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Linn-Mar Community School District's compliance.

#### **Opinion on Each Major Federal Program**

In our opinion, Linn-Mar Community School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2014.

#### **Report on Internal Control Over Compliance**

The management of Linn-Mar Community School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Linn-Mar Community School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Linn-Mar Community School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses and, therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be significant deficiencies or material weaknesses.

A deficiency in the District's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

#### LINN-MAR COMMUNITY SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS YEAR ENDED JUNE 30, 2014

#### Part I: Summary of the Independent Auditor's Results:

- (a) Unmodified opinions were issued on the financial statements.
- (b) Significant deficiencies in internal control over financial reporting were disclosed by the audit of the financial statements.
- (c) The audit did not disclose any non-compliance which is material to the financial statements.
- (d) No material weaknesses in internal control over major programs were noted.
- (e) An unmodified opinion was issued on compliance with requirements applicable to each major program.
- (f) The audit disclosed no audit findings which were required to be reported in accordance with Office of Management and Budget Circular A-133, Section .510(a).
- (g) Major programs were as follows:

#### **Individual Programs:**

- CFDA Number 84.027 Special Education Grants to States (Part B)
- CFDA Number 84.010 Title I Grants to Local Educational Agencies
- (h) The dollar threshold used to distinguish between Type A and Type B programs was \$300,000.
- (i) Linn-Mar Community School District qualified as a low-risk auditee.

#### Part II: Findings Related to the Basic Financial Statements:

#### **INSTANCES OF NON-COMPLIANCE:**

No matters were noted.

#### **INTERNAL CONTROL DEFICIENCIES:**

II-A-14 <u>Purchase Orders</u> - We noted during our audit that the District currently uses purchase orders in the purchasing process, however approximately one-third of the purchase orders tested in the Student Activity Fund during our audit indicated that the purchase order was being approved after items had already been purchased. Purchasing items before the purchase order is approved circumvents internal controls that have been implemented by the District.

> <u>Recommendation</u> - The District's purchase order system procedures should be reviewed with employees and necessary changes made so all purchase orders are approved before items are purchased.

> <u>Response</u> - The District has developed a formal Business Procedures manual that addresses the purchase order system and the appropriate approval processes. This manual has been shared with all administrators and managers, and will be distributed to all employees through the District intranet.

Conclusion - Response accepted.

II-B-14 Sealed Bids - We noted during our audit that the District currently has Board Policy 803.1 in effect that requires that District's Board of Directors receive sealed bids for purchases made that are over \$25,000. The District purchased an illuminated exterior sign for \$36,545 without the District's Board of Directors receiving sealed bids for the sign.

<u>Recommendation</u> - The District's should review Board Policy 803.1 and receive sealed bids for the Board of Directors to approve for purchases over \$25,000.

<u>Response</u> - The District will review Board Policy 803.1 and the applicable purchasing thresholds and ensure staff is following the stated procurement process.

Conclusion - Response accepted.

#### Part III: Findings and Questioned Costs For Federal Awards:

#### **INSTANCES OF NON-COMPLIANCE:**

No matters were noted.

#### **INTERNAL CONTROL DEFICIENCIES:**

No material weaknesses in internal control over the major programs were noted.

#### Part IV: Other Findings Related to Required Statutory Reporting:

- IV-A-14 <u>Certified Budget</u> District disbursements for the year ended June 30, 2014 did not exceed the amounts budgeted in any of the functional areas.
- IV-B-14 <u>Questionable Expenditures</u> No expenditures we believe may not meet the requirements of public purpose as defined in the Attorney General's opinion dated April 25, 1979 were noted.
- IV-C-14 <u>Travel Expense</u> No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.
- IV-D-14 <u>Business Transactions</u> No business transactions between the District and District officials or employees were noted.
- IV-E-14 <u>Bond Coverage</u> Surety bond coverage of district officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.
- IV-F-14 <u>Board Minutes</u> We noted no transactions requiring Board approval which have not been approved by the Board. However, we noted that the minutes were not always published in a timely manner.

<u>Recommendation</u> - The District should publish the minutes within two weeks of the Board meeting, as required by 279.35 of the Code of Iowa.

<u>Response</u> - The District will make sure the minutes are sent to the paper within two weeks of the Board meeting as required by 279.35 of the Code of Iowa. In addition, the District will document when the minutes were submitted.

Conclusion - Response accepted.

IV-G-14 <u>Certified Enrollment</u> - We noted variances in the basic enrollment data certified to the Department of Education. The variances noted caused the District's certified enrollment to be understated by 0.06 students.

<u>Recommendation</u> - The District should contact the Iowa Department of Education and the Department of Management to resolve this matter.

<u>Response</u> - The District's auditor will contact the Iowa Department of Education and Department of Management to resolve this matter. The District has corrected its aid and levy to show the adjustment.

Conclusion - Response accepted.

- IV-H-14 <u>Supplementary Weighting</u> No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.
- IV-I-14 <u>Deposits and Investments</u> No instances of non-compliance were noted with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the district's investment policy.
- IV-J-14 <u>Certified Annual Report</u> The Certified Annual Report was certified timely with the Iowa Department of Education.
- IV-K-14 <u>Categorical Funding</u> No instances were noted of categorical funding used to supplant rather than supplement other funds.
- IV-L-14 <u>Statewide Sales, Services and Use Tax</u> No instances of non-compliance with the use of the statewide sales, services and use tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales, services and use tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2014, the District reported the following information regarding the statewide sales, services and use tax revenue in the District's CAR:

Beginning balance		\$ 16,986,244
Revenues:		
Statewide sales, services and use tax	\$ 5,979,539	
Interest on investments	46,754	6,026,293
	 	 23,012,537
Expenditures/transfers out:		
School infrastructure construction	57,293	
Equipment	507,516	
Other	40,099	
Transfers to other funds:		
Debt service	7,102,227	
Other transfers	 8,939,191	16,646,326
Ending balance		\$ 6,366,211

For the year ended June 30, 2014 the District reduced the following levies as a result of the moneys received under Chapter423E or 423F of the Code of Iowa:

	Per \$1,000 of Taxable Valuation	Property Tax Dollars	
Debt service	\$ 0.54976	\$ 1,000,000	

IV-M-14 <u>Student Activity Fund</u> - In accordance with 298A.8 of the Code of Iowa and Iowa Administrative Code 281-12.6(1), the purpose of the Student Activity Fund is to account for financial transactions related to the cocurricular and extracurricular activities offered as a part of the education program for students.

**School Pictures Account**: Currently, the District records commissions received from the company that takes school pictures of students.

<u>Recommendation</u> - According to Chapter 298A.2 of the Code of Iowa, all money received by a District must be accounted for in the General Fund except for money required by law to be accounted for in another fund. Commissions are not specifically identified as allowable revenue for the Student Activity Fund; therefore, picture commissions would be more appropriately receipted into the General Fund.

Response - Picture commissions will be receipted to the General Fund.

Conclusion - Response accepted.

IV-N-14 <u>Payroll/Vacation Time Issues</u> - We noted during our audit that the District did not report the following incident involving payroll/vacation time discrepancies with the Auditor of State in a timely manner to be in compliance with Chapter 11.6(7) of the Code of Iowa.

The matter involved a payroll assistant that was responsible for payroll while the payroll lead employee was on maternity leave from August 2013 through November 2013. The payroll assistant still had access to the payroll system after the payroll lead returned from maternity leave. The payroll assistant was placed on administrative leave on March 11, 2014 and subsequently terminated.

Although, the District's internal control structure detected the following discrepancies, the remainder of this comment illustrates weaknesses in the District's payroll/accrued vacation time systems that need to be addressed.

On March 10, 2014, it was brought to the Business Manager's attention by the payroll lead employee discrepancies in accrued vacation hours earned by the payroll assistant. The payroll lead employee noticed that the payroll assistant had more hours accrued than what should have been under normal operating practices of the District.

Initially, reports were run for all employees' accrued vacation time from the Kronos timekeeping system for the fiscal year to verify to other District records to determine if there were any other discrepancies in other employees' accrued vacation amounts. After this procedure, it was determined by the District that the only accrued vacation records affected were the payroll assistant's. The District examined the vacation change report from the Kronos system to determine which employee was responsible for the change in accrued vacation amount for the payroll assistant. The payroll assistant's name was the only name that appeared on the vacation change record from the Kronos system. The affected time period of the change in vacation times was compared to payroll records to verify that that payroll assistant was not paid for any of the changes made to the amount of accrued vacation time.

In addition to investigating accrued vacation time, the District also compared reports from the District's Kronos timekeeping system to the pay journal in the IVisions payroll system for the fiscal year to determine if there were any other discrepancies in pay received by the payroll assistant. It was determined that between the dates of August 5, 2013 and November 5, 2013 there were changes in the total number of overtime hours worked by the payroll assistant to the payroll record in the IVisions payroll system(Illustrated by Table A). It was also determined that between the dates of November 20, 2013 and January 3, 2014, that the total dollar amount paid for overtime and not the total hours of overtime were altered in the IVisions payroll system(Illustrated by Table B).

The following is a summary of the discrepancies discovered by procedures performed by District personnel:

Date of	Actual overtime hours earned	Adjusted total hours altered by payroll		Pay	Pay

				Subtotal	\$ 1,681.60
			Total	discrepancy	\$ 3,684.37

#### \* Amounts do not include FICA and IPERS

At the conclusion of the District's investigation, it was determined that the payroll assistant was the only employee that could have manipulated the time as shown in Table A and the total overtime dollars paid as shown in Table B. Ultimately, as part of the settlement agreement between the District and the payroll assistant, the District agreed to amend FICA and IPERS reports and receive the refund associated with the amount of the theft and the payroll assistant agreed to reimburse the District \$3,684.37 for the amount shown above.

<u>Recommendation</u> - According to Chapter 11.6(7) of the Code of Iowa, instances of theft/fraud should be reported in a timely manner to the Auditor of State.

The District needs to review procedures in the payroll and timekeeping processes. Additional procedures should be implemented to verify that manual changes to the timekeeping records and payroll records are legitimate. The District should contact the Kronos and IVisions software and verify that there are additional programs written in the software to produce a manual change report that either the business manager or CFO could verify that the manual changes are legitimate. Vacation time used and paid by the District should be verified as correct periodically.

<u>Response</u> - We have implemented additional procedures to confirm each pay period that the vacation time and pay received are legitimate for all employees having access to payroll. The Business manager reviews the pay journals and Kronos time for all employees that have access to payroll after each payroll is posted. Hours worked and any adjustments are verified as well as gross pay is calculated and verified for accuracy. The payroll lead reviews the pay journal of the Business Manager to assure it is accurate each pay period as well.

Conclusion - Response accepted.

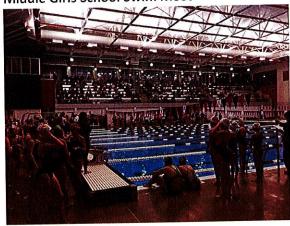

Superintendent's Report **Board of Education** December 8, 2014

#### **One Year Ago:**

- The first boys swim meet was hosted on December 10<sup>th</sup> at the Linn-Mar Aquatic Center
- Boundary Option Red with acceptance of administrative recommendations for the future was approved. Laura Robertson, Doug Slagle, and Derek Jensen presented the recommendation with Dirk explaining the administrative details.

### Strategic Goal #1 Student Achievement

- 1. State Competition Pom Results The Varsity Poms represented Linn-Mar at State held at the Wells Fargo Arena on Friday, December 5<sup>th</sup>. They placed 1st in Hip Hop; 2nd in Pom, and 3rd in Jazz! Way to go girls!
- 2. Middle Girls School Swim Meet -

Bobby Kelley and staff received many KUDOS from other middle school athletic directors regarding last night's first ever Middle Schools Girls All-Conference Swim Meet hosted at the Linn-Mar Aquatic Center on November 20th. There were nearly 300 swimmers along with coaches/parents for the 2 hour event. A total of 12 middle school teams participated. Chad Buchholz reported that it was a packed house and great to see and complimented middle school swim coach Chad Derlein with a tremendous first season for the middle school girls.

### Strategic Goal #3 Staff Development

3. Teacher Leadership – From December 4<sup>th</sup> through December 12<sup>th</sup>, the 21 teacher leaders on full time release are participating in their first round of hour-long performance feedback sessions with me. Debra and Erin are working on Year 2 plan revisions and I am working on the associated budget. It is our goal to have the final draft to share after the Winter Holidays and forward for approval to the lowa Department of Education in February based on input from the State consultant. Session 3 of 4 sessions on Cognitive Coaching for teacher leaders and principals was completed on December 1<sup>st</sup> and 2<sup>nd</sup>. The dates for session 4 are January 19-20, 2015.

### Strategic Goal #4 Community Engagement

4. Marion Fire Department External Stakeholder Meeting – J.T., Steve Nelson, Rick, and I participated in an external stakeholder meeting hosted by the Marion Fire Department on Monday, November 24<sup>th</sup>. We were asked, using our needs to prioritize the importance of the programs they provided. We were also asked to give input on what would improve the services to the community. There were about 35 people participating in this event facilitated by the Center for Public Safety Excellence (CPSE).

#### RESOLUTION

WHEREAS, the Board of Directors of the Linn-Mar Community School District (the "District") has received a proposal to convey certain of its land to Community Baptist Church ("Grantee"), for Two Hundred Twenty Thousand and 00/100 Dollars (\$220,000). The real property to be conveyed is described as follows:

Lot 9 and Lot 27, Linnwood Acres 3<sup>rd</sup> Addition to the City of Marion, Linn County, Iowa;

WHEREAS, it is appropriate pursuant to Iowa Code Section 297.22 to publish a Notice of the proposed conveyance and of the hearing and to receive and consider objections and petitions.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Linn-Mar Community School District:

Section 1. That this Board shall set a public hearing on the conveyance of the above-described Property for January 12, 2015, at 7:00 P.M., in the Board Room, Learning Resource Center, 2999 N. 10th Street, Marion, Iowa.

Section 2. That the Secretary is authorized and directed to prepare, publish, and distribute the Notice of Hearing.

PASSED AND APPROVED this 8th day of December, 2014.

RE:	2015-2016 Student Assistance At-Risk Budget

Please find attached the proposed Student Assistance At-Risk Budget for the 2015-2016 school year.

The proposed budget does not require any increase of funding although several options are available to increase services for Linn-Mar students and families.

New options to explore for the 2015-2016 school year include:

- Increase partnership with Family Systems Therapy and Counseling Services
- Increase alternate program models for middle school students
- Increase year-round program options for 2016 summer programs

The Linn-Mar Student Assistance Team is to be commended for the continued time, service, and support they provide to the students, families, and staff of the Linn-Mar Community.

### 2015-2016 Calendar Committee Recommendation

The Linn-Mar Community Schools Calendar Committee met throughout the month of November in order to develop a recommendation for the 2015-2016 calendar. Several calendar options were discussed and eventually narrowed down to two. These options were presented to buildings, departments, and parent groups for feedback. All feedback was shared with the committee and discussed. The committee focused on the job with 5 goals in mind. Members worked to produce a calendar that:

- a. is best for kids
- b. follows the contract
- c. is compliant with Iowa code
- d. meets the needs of the district and different levels within
- e. is easy for all stakeholders to understand

# Memorandum

To: Linn-Mar Board of Education, Dr. Katie Mulholland, Superintendent
From: Jeff Gustason, Principal
Date: 11/20/2014
Re: Early Graduation

The following students have applied for early graduation in December 2014:

Brandon Davis Molly McInroy Shyanne Stribling Jade Watson Kelly Wingerson

These students have a post-secondary education plan in place that has been developed with the Linn-Mar High School counseling staff. These students are on track to meet or exceed Linn-Mar's requirements for graduation by the end of this  $2^{nd}$  Quarter/1<sup>st</sup> Semester.

I recommend the approval of these requests pending the successful completion of current course work.

Strategic Goal 1	Strategic Goal 2	Strategic Goal 3	Strategic Goal 4	Strategic Goal 5
Student Achievement: All action on teaching and learning will focus on empowering achievement at the highest level for each student.	Learning Environments: All buildings and facilities will support the learning and teaching needed to unlock the potential in each student.	Staff Development: All staff will learn, perform and lead in such a manner as to inspire learning for students.	Community Engagement: The entire school community will engage the families, residents and stakeholders for the purpose of increasing opportunities for students.	Resources: All resources, real and potential, will be planned, and allocated in the spirit of providing an exciting and secure future for the students and District.

#### WORK SESSION DISCUSSION/INFORMATION

<u>2015-16 Bus Replacement Purchase</u>: Brian Cruise, Director of Transportation, shared information with the Board of the benefits of propane versus diesel fueled buses. Benefits included: 1) lower maintenance costs, 2) lower cost for propane, 3) better emissions, 4) easier to operate in cold weather, and 5) an overall cost savings for the District.

<u>Student ROAR Store</u>: High School Students Matt Chayer, Alexy Boehm, and Thomas Beevers, along with their Teacher, Corey Brinkmeyer, presented information on the background, merchandise, financing, promotional ideas, student roles, Advisory Board, and future goals of the ROAR Store.

<u>Teacher Leadership Update</u>: Debra Barry, Co-Coordinator of the Teacher Leadership Program, presented an update to the Board on the first quarter statistics of the program. Barry also shared some fun examples of collaboration projects with Westfield Elementary and Wilkins Elementary. Additional information on the Teacher Leadership Program can be found on their Blog Spot at: <u>http://lmlionleaders.blogspot.com/</u> and a video of the Wilkins Elementary Classroom Makeover event can be viewed at: <u>https://www.youtube.com/watch?v=P\_MCovY-GFc&feature=youtu.be</u>.

<u>Aquatic Center Annual Report</u>: Aquatic Center Manager Bobby Kelley presented an annual report to the Board. Items shared included that the Aquatic Center opened one year ago and that the Aquatic Center is used by students 90% of the time, the public 10% of the time, and by staff. Challenges over the past year have been offering classes that fit into student schedules, coordinating busing for students to/from classes, and students without swimming suits.

<u>High School Program of Studies</u>: Jeff Frost, Director of High School Teaching & Learning, shared an update on the 2015-16 Program of Studies for the High School including classes that were added, removed, and renamed.

<u>Potential Construction Projects</u>: Superintendent Katie Mulholland updated the Board on the list of potential construction projects through August 2015.

<u>High School Phase II Renovations Update</u>: Dirk Halupnik, Deputy Superintendent, updated the Board on the progress of the new science rooms, which should be completed this week. A final walk through of the science rooms will occur Tuesday, November 25<sup>th</sup> and students should be in the new classrooms after Thanksgiving break. Halupnik also shared an update on the phasing/sequencing timeline for the Phase II renovations.

#### ADMINISTRATIVE REGULATIONS REGARDING FIELD TRIPS AND EXCURSIONS

#### Exhibit 1104.1

A written request for overnight trips must be submitted to the building principal not less than three (3) weeks prior to the proposed trip and prior to any travel arrangements being finalized. The request will include: objectives and purposes of the trip; the need, rationale, and justification for an overnight trip; detailed plans for student supervision on the trip; and a complete itinerary and budget of the trip. The school district will be responsible for obtaining a substitute teacher if one is needed. Following field trips and excursions, the teacher shall submit a written summary of the event.

Overnight trips involving high school students will require the prior approval of a high school administrator and the superintendent or designee.

Overnight trips for the middle and elementary school students will require the prior approval of the Board of Directors.

In authorizing field trips, the principal shall consider the financial condition of the school district, the educational benefit of the activity, the inherent risks or dangers of the activity and other factors deemed relevant by the superintendent, including the participation of the membership of the regular activity group. Students who have graduated may not participate in school sponsored field trips unless the event is sanctioned by the state athletic associations.

#### Field Trips Criteria:

The following checklist and application must be submitted for overnight trips along with the required documentation

Criteria		<b>Description</b> The purpose of the field trip/work site visit is clearly defined and " is a vital part of the curriculum or current activity." Reference: Board Policy 603.3

Linn-Mar JV Poms—Mall of America UDA Regional Competition Itinerary

## Departure for Minnesota will be on Friday, January 9<sup>th</sup>.

Girls will be called out of school on Friday morning. Parents are in charge of transportation to and from MN. Some families have chosen to carpool and a list is being compiled of who will be in each car. Parents will be driving; no students. Everyone will meet at the hotel around lunchtime and head to the Mall of America for shopping. Travel and meal funds are provided by the pommers and their families. Hotel rooms (for the coaches and pommers, with breakfast included) will be paid for with fund raising money. The families pay for their own individual rooms.

## Hotel (Friday, 1/9 – Sunday, 1/11)

Hilton Minneapolis/Bloomington 3900 American Boulevard West Bloomington, MN 55437 (952) 893-9500

Competition on Saturday, January 10<sup>th</sup>. This all day event usually runs from 10am – 7pm.

Mall of America 8100 24<sup>th</sup> Avenue South Bloomington, MN 55425 (952) 883-8800

## They will return in the afternoon/evening of Sunday, January 11<sup>th</sup>.

<u>JV Poms 2014-2015</u> (all girls have updated forms on file with the Athletic Office) For student confidentiality, names not listed.
