

Administrative Regulations for District Operations During Public Emergencies

Code 902.12-R

During a public health emergency, the district will seek guidance and recommendations from federal, state, and local agencies that monitor and respond to the emergency. The district will follow any mandatory closures or other mandatory measures imposed by such agencies.

The superintendent, in conjunction with relevant government agencies and/or athletic and activity associations, will determine under what circumstances the district will restrict or cancel in-person learning; student events or activities including sports events; extracurricular clubs or meetings for students; and the use of district facilities by outside organizations.

The district will promote and follow other recommended measures and guidance from federal, state, and local agencies to the extent reasonably practicable under the circumstances. These measures may include, but are not limited to the following:

- Online learning, hybrid models of learning, or modified in-person learning may occur dependent on the circumstances and in accordance with applicable law.
- Non-medical grade masks are required to be worn by all individuals on school grounds, including students, employees, and volunteers. Masks will be provided to individuals who request them. Reusable masks should be washed regularly by the individuals wearing them.
- Employees, volunteers, and students are required to monitor their temperatures each morning prior to traveling to any school building or event. Individuals with a temperature over 100.3 degrees should not enter school buildings or attend school events.
- Due to the increased cost to the district for providing additional cleaning and disinfecting measures, and in order to preserve cleaning supplies for school use during the time of a public health emergency, the superintendent has the discretion to restrict the use of school buildings and facilities for non-school groups in a neutral and non-discriminatory manner.
