November 20, 2019

Sondra Nelson, President,
Members of the Board of Education,
and the Citizens of Linn-Mar Community School District
Marion, Iowa

We are proud to submit to you the Comprehensive Annual Financial Report of the Linn-Mar Community School District for the year ending June 30, 2019. This report has been prepared to conform to the guidelines recommended by the Association of School Business Officials International.

MANAGEMENT RESPONSIBILITY

Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed information is fairly stated in all material respects and is presented in a manner which sets forth the financial position and results of the operations of the governmental activities, business-type activities, each major fund and aggregate of the remaining funds of the District in accordance with generally accepted accounting principles, (GAAP). It includes all funds of the entire District. The District is not included in any other reporting entity, nor are other entities included within this report. All disclosures necessary to enable a reader to gain maximum understanding of the District's financial activities have been included.

CAFR

The 2019 Comprehensive Annual Financial Report is presented in four sections: Introductory, Financial, Statistical and Internal Controls and Compliance.

Introductory Section- This section includes a transmittal letter, economic outlook of the community, the District's accomplishments, the Certificate of Excellence in Financial Reporting for the year ended June 30, 2018, the District's Team Leadership Network and a list of the Board of Directors and District Officials.

Financial Section- The School District's financial statements and schedules are presented in accordance with the financial reporting pyramid set forth by the Governmental Accounting Standards Board. This section includes the independent auditor's report, Management's Discussion and Analysis (MD&A), audited basic financial statements,

required supplementary information, and combining and individual fund statements and schedules. The audited basic financial statements provide both an overview and a broad long-term perspective of the School District as a whole in the government-wide financial statements. The MD&A is provided by management as a narrative introduction, overview, and analysis to accompany the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

Statistical Section- This section includes selective financial, economic and demographic information, generally presented on a multi-year basis for comparison.

Compliance Section- This section includes audit reports relating to the Board's single audit over internal control, federal and state awards, Schedule of Expenditures of Federal and State Awards.

Linn-Mar Community School District

This report includes all funds of the Linn-Mar Community School District. The District provides a full range of services including instructional, administrative, transportation, food service, maintenance of sites and facilities, custodial, clerical and extra- and co-curricular activities.

The District is governed by a seven-member elected Board of Education. Board terms are four years with school elections held in November of odd numbered years. The Board of Directors is a policy-making and planning body whose decisions are carried out by school administrators.

The Linn-Mar Community School District is located in Linn County in east central Iowa. The District includes portions of the Cities of Cedar Rapids, Marion and Robins, as well as unincorporated land in northern Linn County. The District originated in 1948 as Marion Rural Independent School District, and became the Marion Rural Community School District under the Community School Reorganization Act adopted in 1955. It operated under this name from 1955 to 1963 when its name was changed to Linn-Mar Community School District. The District is currently the 12th largest of Iowa's 330 public school systems. The certified enrollment taken on October 1, 2018, was approximately 7,556 students, which is an increase of approximately 120 students from 2017-18. The District operates one high school, two middle schools, seven elementary schools, an alternative High School Program, a special education transition program, a home school assistance program and an early childhood preschool program. The District provides a full range of educational services appropriate to students in early childhood and preschool through grade twelve. These services include basic, regular and enriched academic education; special education for children with special needs; vocational-technical education; and numerous individualized programs such as specialized instruction for students at-risk and for limited English speaking students.

In addition to a strong PK-12 educational program, the District works with Kirkwood Community College to offer courses for qualified high school students and a community education program for adult learners.

The District is supported financially by state aid, property taxes, state and federal grants for special projects, local revenue received for tuition and other services, and a state-wide one percent sales tax.

Economic Condition and Outlook

Linn-Mar Community School District is located in the Cedar Rapids Metropolitan Service Area (MSA). The District covers 64 square miles and encompasses the north part of the city of Marion and the NE portion of city of Cedar Rapids. The Cedar Rapids Metropolitan Service Area is home to numerous Fortune 500 companies, two of which are located within Linn-Mar's District boundaries.

Collins Aerospace (formerly Rockwell Collins) is the largest employer, not only in the Linn-Mar District, but in the Cedar Rapids metro area, employing approximately 8,000 people in the Cedar Rapids/Iowa City area. Collins produces advanced communications and aviation electronics for both government and commercial customers. The company is a leading supplier of commercial and military aviation electronics and communications systems.

Unemployment rates in the MSA Corridor continue to remain lower than national averages. The City of Marion continues to grow as does the City of Cedar Rapids. During calendar year 2018, the City of Marion issued 160 single-family dwelling building permits, 21 multi-family permits, and 22 new commercial building permits. District taxable assessed valuations have continued steady growth to over \$2.2 billion for January 2018 values.

The District's facilities are in average-to-good condition. The oldest building, which opened in 1948 and has several additions, was repurposed in 2010 to house the central administrative offices, the district's alternative HS program, and the district's home school assistance program. Four facilities were initially built between 1959 and 1968. Each has had several additions over the years. The five remaining school sites were built between 1995 and 2010. Many of these buildings have also had additions and/or renovations. The Transportation and Operations & Maintenance facility was completed in 2010. In 2013, construction was completed on a district Aquatic Center.

On September 11, 2018, voters of the Linn-Mar Community School District approved a \$55 million general obligation bond vote for the construction of two new intermediate buildings. Construction of Boulder Peak and Hazel Point Intermediate Schools began in the Spring of 2019 and is scheduled to be completed in the Fall of 2020.

The financial solvency ratio of the District measures movement and distribution of current assets. The financial solvency ratio represents a school district's year-end position after payment of all current and outstanding or accrued liabilities. Iowa Association of School Boards recommends a target solvency ratio within a range of 5% to 15%. Since fiscal year 2009 the District has maintained a solvency ratio within this defined range. The current solvency ratio is 10.15%,

which is a slight decrease from 10.56% during 2017-18. The State set the supplemental state aid growth rate at 2.06% for the 2020 fiscal year. Future supplemental state aid beyond fiscal year 2020 is not known, but the District is projecting little to no growth, as that has been the trend for the past several years. Despite this unknown, Linn-Mar continues to realize steady enrollment growth and the District will thoughtfully plan its budget in order to maintain a solvency ratio and unspent balance ratio that is within the target range of 5% to 15%.

District Major Initiative and Achievements

The staff, board, students, and community members are to be commended for making the 2018-2019 school year a very productive one. Some of the many accomplishments for the year include:

- The District hosted its own Innovation Day for all secondary certified staff, focusing on specific areas such as blended learning, PBIS, and standards based grading.
- With 66.32% voter approval, the District passed a \$55 million bond referendum to construct two 5th and 6th grade intermediate buildings; Boulder Peak Intermediate and Hazel Point Intermediate.
- The District's Olweus Bullying Prevention Program was recognized nationally by earning the 2018-19 Ford Motor Fund Bullying Prevention Award.
- Linn-Mar partnered with another local school district to form the Marion Youth Center, which provides after school and summer opportunities for 5th through 9th grade at-risk students.
- The recording of approximately 26,148 volunteer hours with over 1,800 active volunteers in the District. Volunteers enhance our students' learning by acting as tutors, reading to kindergarten classrooms, assisting teachers in their classrooms or on field trips, or serving on committees. Last year, 105 volunteers gave more than 100 hours each to our schools.
- The District was recognized for its continued excellence in financial reporting with the receipt of the District's fifteenth consecutive Certificate of Excellence in Financial Reporting award for the 2017-2018 Comprehensive Annual Financial Report (CAFR).

All of the dedicated work that went into these initiatives and achievements had one main focus: supporting the learning of the District's students. For the 2018-2019 school year, the students, as a group, continued to perform at a high level. Following are a few indicators:

- Student achievement exceeded the state average for each grade span in reading, math and science as measured on the Iowa Assessment standardized test.

- Students in grades 6-8 met or exceeded their target growth on the NWEA MAP mathematics and reading tests.
- Linn-Mar students continue to score higher than both the state and national averages of students that complete the ACT assessment. The 18-19 Linn-Mar Community School District composite ACT score was 23.9 compared to 21.6 for the state.
- The 2018-19 Linn-Mar composite average for Advanced Placement exams was 3.64.
- On the FAST Assessment Linn-Mar students achieved at a 80% proficiency level in the Spring of 2019.
- Seven Linn-Mar students were recognized as National Merit semi-finalists.

Financial Information

Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management. All internal accounting controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

In addition, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual budget approved by the District's governing body. Activities of the General Fund, Special Revenue Funds, Enterprise Fund, Debt Service Fund and Capital Projects Fund are included in the annual budget. The level of budgetary control (that is, the level at which expenditures cannot legally exceed the budgeted amount) is established by function and encompasses all fund types. To facilitate the monitoring of the legal provisions, and to provide more complete information to interested parties the District prepares a more detailed budget for each fund. The following information reflects the comprehensive budget for these individual funds rather than demonstrating compliance at the legal level. The District also maintains an encumbrance accounting system as one technique of accomplishing budgetary control.

Independent Audit

State law and District policy require an annual audit to be made of the books of account, financial records and transactions of all funds of the District by a Certified Public Accountant selected by the Board of Directors of the District. The District has complied with this requirement. The report of the District's independent accountants, Bohnsack & Frommelt, LLP, appears in this report. Their audit of the basic financial statements was performed in accordance

with auditing standards generally accepted in the United State of America and, accordingly, included a review of the District's system of budgetary and accounting controls.

Certificate of Excellence in Financial Reporting

The Association of School Business Officials International (ASBO), awards a Certificate of Excellence in Financial Reporting. This certificate is a prestigious national award recognizing conformance with the highest standards for preparation of government financial reports.

In order to be eligible to receive the Certificate, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, (CAFR) whose contents conform to program standards. Such CAFR must satisfy both Generally Accepted Accounting Principles and applicable legal requirements.

This Certificate is valid for a period of one year only. The District believes that the current CAFR conforms to the requirements for the Certificate of Excellence and therefore, is submitting to ASBO to determine its eligibility for the Certificate.

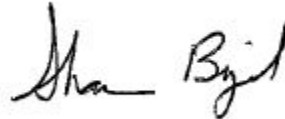

Acknowledgements

The publication of this report is a major step toward the commitment to professionalism in financial reporting and significantly increases the accountability of the District to the taxpayers. This would not have been possible without the help of several people. We would like to express our appreciation to all District, City and County employees who assisted in the preparation of this report.

Finally, sincere appreciation is extended to the Board of Education, where commitment to excellence begins. It is with great pleasure that this year's Comprehensive Annual Financial Report is submitted to the Board of Education.

Independent Auditor's Report

To the Board of Education
Linn-Mar Community School District
Marion, Iowa

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Linn-Mar Community School District, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Linn-Mar Community School District, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Information

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the District's total OPEB liability and related ratios, and schedules of proportionate share of the net pension liability and schedules of contributions on pages 4–14 and 52-59 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information as listed in the table of contents and schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and the other information including the introductory and statistical sections are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information as listed in the table of contents and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 19, 2019 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Bohnsack & Frommelt LLP

Moline, Illinois
November 19, 2019

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Linn-Mar Community School District provides this Management's Discussion and Analysis of its financial statements. This narrative overview and analysis of the financial activities is for the fiscal year ended June 30, 2019. We encourage readers to consider this information in conjunction with the District's financial statements, which follow:

2018-19 Financial Highlights

- The District's net position for governmental activities was \$56,563,723 at June 30, 2019, compared to \$54,425,191 at June 30, 2018, an increase of \$2,138,532 or 3.93 percent.
- The District's net position for business-type activities was \$1,233,405 at June 30, 2019 compared to \$1,107,394 at June 30, 2018, an increase of \$126,011 or 11.38 percent.
- At the end of fiscal year 2019, the total of assigned and unassigned fund balances in the General Fund was \$8,793,019 or 10.16 percent of total General Fund revenues compared to prior year's total balance of \$8,816,614 or 10.57 percent of total General Fund revenues.
- The District's long-term bonded debt and capital loan notes increased approximately \$2,682,823 due to the scheduled debt repayments and amortization of premiums and discounts being less than the issuance of \$10,000,000 general obligation bonds.

Using this Annual Report

The annual report consists of a series of financial statements and other information, as follows:

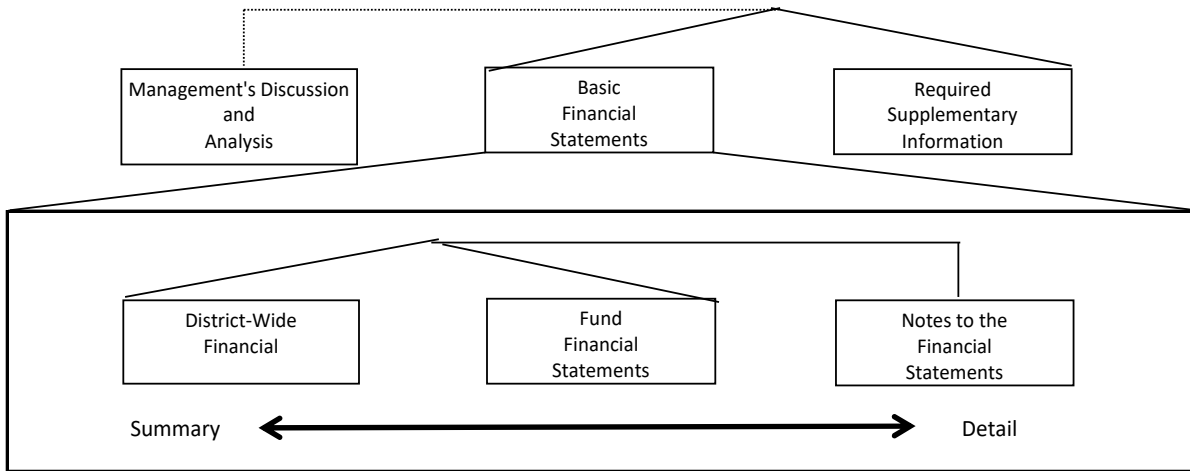

- Management's Discussion and Analysis introduces the basic financial statements and provides an analytical overview of the District's financial activities.
- The government-wide financial statements consist of a Statement of Net Position and a Statement of Activities. These provide information about the activities of Linn-Mar Community School District as a whole and present an overall view of the District's finances.
- The fund financial statements tell how governmental services were financed in the short-term as well as what remains for future spending. Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the most significant funds.
- Notes to financial statements provide additional information essential to a full understanding of the data provided in the basic financial statements.
- Required supplementary information further explains and supports the financial statements with a comparison of the District's budget for the year and information regarding the District's retiree health plan and pension plan.
- Other supplementary information provides detailed information about the nonmajor governmental funds and nonmajor enterprise funds.

**Management’s Discussion and Analysis
Year Ended June 30, 2019**

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District’s activities they cover and the types of information they contain.

Figure A-2 Major Features of the Government-Wide and Fund Financial Statements				
Government-Wide Statements		Fund Statements		
		Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire District (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary, such as special education and building maintenance	Activities the District operates similar to private businesses: school nutrition and internal service fund	Instances in which the District administers resources on behalf of someone else, such as scholarship programs, reunion moneys and funds for District employee purchases of pop, etc.
Required financial statements	Statement of net position Statement of activities	Balance sheet Statement of revenues, expenditures and changes in fund balances	Statement of net position Statement of revenues, expenses and changes in net position Statement of cash flows	Statement of fiduciary net position Statement of changes in fiduciary net position
Accounting basis and measurement focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of asset/liability information	All assets and liabilities, both financial and capital, short-term and long-term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and the related liability is due during the year or soon thereafter	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Reporting the District's Financial Activity

Government-Wide Financial Statements

The government-wide financial statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The Statement of Net Position includes all of the District's assets and deferred outflows of resources, liabilities, and deferred inflows of resources, with the difference reported as net position. All of the current year's revenues and expenses are accounted for in the Statement of Activities, regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how it has changed. Net position is one way to measure the District's financial health or position.

- Over time, increases or decreases in the District's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the District's overall health, you need to consider additional non-financial factors such as changes in the District's property tax base and condition of school buildings and other facilities.

In the government-wide financial statements, the District's activities are divided into two categories:

Governmental activities: Most of the District's basic services are included here, such as regular and special education, transportation and administration. Property taxes and state aid finance most of these activities.

Business-type activities: The District charges fees to help it cover the costs of certain services it provides. The District's food service program, aquatic center and ROAR store activities would be included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, focusing on its most significant or "major" funds – not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs.

- Some funds are required by state law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes, (such as repaying its long-term debts) or to show that it is properly using certain revenues, (such as federal grants).

The District has two kinds of funds:

- 1) **Governmental Funds:** Most of the District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the Government-wide statements, additional information in the notes to financial statements explains the relationship (or differences) between them.
- 2) **Proprietary funds:** Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the Government-wide financial statements. The District's Enterprise Funds (one type of proprietary fund) are the same as its business-type activities but provides more detail and additional information, such as cash flows.

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Reconciliations between the government-wide financial statements and the governmental fund financial statements follow the governmental fund financial statements.

Government-Wide Financial Analysis

Net position is an indicator of the fiscal health of the District. The District's net position increased by 4 percent, increasing from approximately \$55.54 million at June 30, 2018, to approximately \$57.79 million at June 30, 2019. Figure A-3 below provides a summary of the District's net position as of June 30, 2019 compared to June 30, 2018.

Figure A-3 Condensed Statement of Net Position (in millions of dollars)

	Governmental Activities		Business-Type Activities		Total School District		Total Percentage Change 2018-2019
	2019	2018	2019	2018	2019	2018	
Current and other assets	\$ 83.84	\$ 71.39	\$ 1.85	\$ 1.57	\$ 85.69	\$ 72.96	17%

Total liabilities	149.84	144.93	1.52	1.53	151.36	146.46	3%
Deferred inflows of resources	42.25	37.63	0.08	0.04	42.33	37.67	12%
Net position:							
Net investment in capital assets	76.71	70.50	0.57	0.67	77.28	71.17	9%
Restricted	10.55	12.01	-	-	10.55	12.01	-12%
Unrestricted	(30.70)	(28.08)	0.66	0.44	(30.04)	(27.64)	9%
Total net position	\$ 56.56	\$ 54.43	\$ 1.23	\$ 1.11	\$ 57.79	\$ 55.54	4%

Net investment in capital assets, such as land, buildings, machinery and equipment, less any outstanding debt used to acquire those assets is approximately \$77.28 million. These assets are considered non-spendable since they represent capital assets used to provide services to students. The resources needed to pay the obligations from the debt related to these assets must be provided from other resources. Approximately \$10.55 million of net position has some external restrictions on how the funds may be used. The deficit remaining balance of approximately \$30.04 million represents unrestricted net position. Unrestricted net position remains at a deficit net position due to the District's net pension liability reporting requirements which were implemented in fiscal year 2015 and other postemployment benefit liability implemented in fiscal year 2018.

As mentioned before, restricted net position represents resources that are subject to external restrictions such as enabling legislation or constitutional provisions. The District's restricted net position decreased approximately \$1.46 million, or 12 percent from the prior year. The decrease in the District's restricted net position was due primarily to the decrease in amounts restricted for school infrastructure. The District expended approximately \$5.9 million on capital projects in fiscal year 2019.

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Unrestricted net position represents the assets that can be used to finance day-to-day operations without constraints established by debt restrictions, enabling legislation or other legal binding requirements. Unrestricted net position decreased approximately \$2.40 million, or 9 percent.

The following figure shows changes in net position for the year ended June 30, 2019, compared to the year ended June 30, 2018.

During fiscal year 2019, property tax and unrestricted state grants accounted for 69.06 percent of governmental activities revenue while charges for service and operating grants, contributions and restricted interest accounted for all of business type activities revenue.

The District as a whole experienced a 4.1 percent increase in revenue while experiencing a 5.0 percent increase in expenses. The District's total revenue was approximately \$109.20 million of which \$105.14 million was for governmental activities, while the remaining \$4.06 million was for business-type activities.

Linn-Mar Community School District

**Management's Discussion and Analysis
Year Ended June 30, 2019**

Property taxes and unrestricted state grants account for most of the District's revenue, with each contributing approximately 33 percent of the total dollars collected. (See figure A-5).

The total cost for all programs and services increased 5.1 percent to \$106.93 million. The District's total expenses are listed in Figure A-6. The chart shows that the majority of the District's expenses (87 percent) are devoted to instruction and student instructional support services.

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Governmental Activities

Revenues for the District's governmental activities increased 4.14 percent, while expenses increased 5.26 percent. The increase in revenues can be attributed to the increase in property tax and charges for services received during fiscal year 2019 as compared to fiscal year 2018.

The District experienced a \$5.15 million increase in governmental activities expenses, the majority of which can be attributed primarily to an increase in negotiated salaries and benefits.

Figure A-7 presents the total and net cost of the District's four major governmental activities: instruction, support services, noninstructional programs and other expenses, for the year ended June 30, 2019 compared to the year ended June 30, 2018.

Figure A-7 Net Cost of Governmental Activities

	Total Cost of Services		Percentage	Net Cost of Services		Percentage
	2019	2018	Change 2018-19	2019	2018	Change 2018-19
Instruction	\$ 61.47	\$ 58.93	0.04%	\$ 43.51	\$ 41.69	4.4%
Support services	30.74	28.50	0.08	28.88	26.63	8.4%
Non-instructional	0.09	0.10	(0.10)	0.10	0.10	0.0%
Other	10.70	10.32	0.04	7.35	7.08	3.8%
Total	\$ 103.00	\$ 97.85	0.05	\$ 79.84	\$ 75.50	5.7%

For the year ended June 30, 2019:

- The cost financed of all governmental activities this year was approximately \$103.00 million.
- The cost financed by users of the District's programs was approximately \$10.04 million.
- Federal and state governments subsidized certain programs with grants and contributions as well as contributions from local sources totaling approximately \$13.13 million.
- The net cost of governmental activities was financed with approximately \$36.47 million in property tax, \$7.65 million in statewide sales, services and use tax, \$36.14 million in unrestricted state grants and \$0.68 million in unrestricted interest, gain on sale of capital assets and other income.

Business-Type Activities

Revenues of the District's business type activities increased by 3.57 percent to approximately \$4.06 million while expenses remained relatively stable (Refer to Figure A-4). The School Nutrition Fund, Aquatic Center Fund and ROAR Store Fund are the District's three business-type activities. The revenues in these three funds can be broken down into three main categories; charges for service, federal and state reimbursements and investment income.

The District's business type activities net position increased from approximately \$1.11 million at June 30, 2018 to approximately \$1.24 million at June 30, 2019, an increase of \$0.13 million or 11.70 percent.

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Governmental Fund Highlights

At the end of fiscal year 2019, the District's governmental funds reported combined ending fund balances of \$31,049,545, an increase of \$6,575,826 from the prior year. A closer look at each individual major governmental fund reveals the following:

- The General Fund balance decreased from approximately \$9.97 million on June 30, 2018, to approximately \$9.86 million on June 30, 2019. General Fund revenues increased from the prior year by approximately \$3.09 million. Revenues increased due to increases in assessed valuation for property taxes and increased state funding for programs. General Fund expenditures increased by \$2.80 million due to increases in salaries and benefits.
- The Capital Projects Fund balance increased from approximately \$6.99 million on June 30, 2018 to approximately \$13.14 million on June 30, 2019. The increase in overall Capital Projects Fund balance can be attributed to the issuance of \$10 million in general obligation bonds to finance capital expenditures.
- The Debt Service Fund balance increased from approximately \$4.08 million on June 30, 2018, to approximately \$4.21 million on June 30, 2019. Revenues and expenditures did not vary significantly from the prior year and are based on scheduled debt service of the District's debt obligations.

Proprietary Fund Highlights

The District's proprietary fund revenues exceeded expenses. Eight of the previous ten years the District's business-type revenues exceeded expenses. At the close of fiscal year 2019, revenues exceeded expenses by \$126,011. Total operating expenses decreased slightly from \$3,954,046 in 2018 to \$3,933,121 in 2019 primarily due to a decrease in supplies.

Budgetary Highlights

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds. Although the budget document presents functional area expenditures or expenses by fund, the legal level of control is at the aggregated functional level, not at the fund or fund type level. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared according to U.S. Generally Accepted Accounting Principles.

A schedule showing the original and final budget amounts compared to the District's actual financial activity is included in the required supplementary information section of this report. Since the District does not adopt a budget for individual funds, budgets for the General Fund and major Special Revenue Funds are not presented in the budgetary comparison.

The District's total actual revenues were \$905,919 more than budgeted revenues, a variance of 0.84 percent from final budgeted amounts. The main contributing factor to the variance was with the District receiving more in state revenue than was originally budgeted or anticipated. The District did not exceed the budgeted expenditures/expenses in any of the four functions.

By April 15th of each year, the budget must be adopted by the Board of Directors for the fiscal year beginning July 1 through June 30, which immediately follows. Because there are a number of unknowns at that time, such as State revenue allocations, insurance premiums, negotiated employee contracts, enrollment increase, and construction project invoicing, the District has the ability to amend its budget before May 31st of each year. The District amended the budgeted \$2,250,000 for additional expenditures in the instructional function for additional purchases.

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Capital Asset Administration

By the end of fiscal year 2019, the District had invested, net of depreciation, approximately \$151.63 million in various capital assets including land, buildings, vehicles and equipment (See Figure A-8). This amount represents a net increase of approximately \$.51 million or 0.3 percent over the previous fiscal year. The primary reason for the increase in capital assets for fiscal year 2019 is due to the construction of two new junior high school buildings.

Figure A-8 Capital Assets (Net of Depreciation) (in hundreds)

	Governmental Activities		Business-Type Activities		Total School District		Total Percentage
							Change

Long-Term Liabilities

At year end, the District had approximately \$137.62 million in long-term debt, an increase of approximately \$2.17 million from the previous fiscal year. Approximately \$8.09 million of the District's long-term debt is due within one year. The primary reason for the increase in long-term liabilities for fiscal year 2019 is due to the issuance of \$10 million in general obligation bonds. Detailed information regarding the District's long-term debt can be found in Note 6 of the Notes to Basic Financial Statements.

Linn-Mar Community School District

Management's Discussion and Analysis Year Ended June 30, 2019

Factors Bearing on the District's Future

At the time these financial statements were prepared and audited, the District was aware of three existing circumstances that could significantly affect its financial health in the future:

- The state has set supplemental state aid at 2.06 percent for fiscal year 2020. A supplemental state aid below 4 percent creates significant challenges for schools in Iowa to meet increasing expenditure demands.
- Collins Aerospace, the District's largest employer, continues to be active in merger and acquisition negotiations of some of its core business units. The impact of these negotiations on the District and the Cedar Rapids Metropolitan Area is not fully known.
- With two new intermediate school buildings opening in the fall of 2020 the District expects its general fund operating expenditures to increase 5% or more in fiscal year 2020.

Contacting the District's Financial Management

This financial report is designed to provide the District's citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the office of the Business Administrator, Linn-Mar Community School District, 2999 10th Street, Marion, Iowa 52302.

**Reconciliation of the Balance Sheet -
Governmental Funds to the Statement of Net Position
June 30, 2019**

Total fund balances of governmental funds		\$ 31,049,547
Amounts reported for governmental activities in the Statement of Net Position are different because:		
Capital assets used in governmental activities are not financial resources and, therefore are not reported as assets in the governmental funds.		151,059,719
Other long-term assets are not available to pay for current period expenditures and, therefore, are unavailable in the funds.		377,809
Accrued interest payable on long-term liabilities is not due and payable in the current year and, therefore, is not reported as a liability in the governmental funds.		(1,056,095)
Pension and OPEB related deferred outflows of resources and deferred inflows of resources are not due and payable in the current year and, therefore, are not reported in the governmental funds as follows:		
Deferred inflows of resources related to OPEB	(56,515)	
Deferred outflows of resources related to OPEB	87,575	
Deferred outflows of resources related to pension	13,666,753	
Deferred inflows of resources related to pension	<u>(2,300,363)</u>	11,397,450
Long-term liabilities, including bonds payable and compensated absences, are not due and payable in the current period, and, therefore, are not reported as liabilities in the governmental funds.		
General obligation bonds payable	(32,420,000)	
Revenue bonds payable	(45,990,000)	
Capital loan notes payable	(6,885,000)	
Unamortized bond discounts	11,344	
Unamortized bond premiums	(1,147,392)	
Termination benefits	(695,042)	
Compensated absences	(33,045)	
Net pension liability	(46,085,778)	
Net OPEB liability	<u>(3,019,794)</u>	(136,264,707)
Net position of governmental activities		<u><u>\$ 56,563,723</u></u>

**Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances - Governmental Funds to the Statement of Activities
Year Ended June 30, 2019**

Net change in fund balances - total governmental funds \$ 6,575,828

Amounts reported for governmental activities in the Statement of Activities are different because:

Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, those costs are not reported in the Statement of Activities and are allocated over their estimated useful lives as depreciation expense in the Statement of Activities. Capital outlay expenditures and depreciation expense in the year are as follows:

Capital outlay	6,277,065	
Depreciation expense	(5,678,672)	598,393
Proceeds from sale of capital assets		(55,820)
Gain on sale of capital assets		54,987

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds, change in unavailable revenue for statewide sales and services tax. 27,033

Proceeds from issuing long-term liabilities provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the Statement of Net Position. Repayments of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.

Current year items are as follows:

Issuance of general obligation bonds	(10,000,000)	
Premium on issuance of general obligation bonds	(93,303)	
Principal repayments	7,140,000	
Amortization of premiums and discounts	270,480	(2,682,823)

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the governmental funds when due. In the Statement of Activities, interest expense is recognized as the interest accrues, regardless of when it is due. (110,168)

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds.

Change in termination benefits	(451,663)	
Change in compensated absences	10,012	
Change in pension expense and related deferrals	(1,560,388)	
Change in OPEB expense and related deferrals	(266,859)	(2,268,898)

Change in net position of governmental activities **\$ 2,138,532**

See Notes to Basic Financial Statements.

During the year ended June 30, 2019, the District used \$253,528 of federal commodities.

See Notes to Basic Financial Statements.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Summary of Significant Accounting Policies

Linn-Mar Community School District is a political subdivision of the state of Iowa and operates public schools for children in grades kindergarten through twelve and special education pre-kindergarten. Additionally, the District operates or sponsors various adult education programs. The geographic area served includes the City of Marion, Iowa, portions of the Cities of Robins and Cedar Rapids and portions of the agricultural territory in Linn County. The District is governed by a Board of Education whose members are elected on a non-partisan basis.

The District's financial statements are prepared in conformity with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board.

Reporting entity:

For financial reporting purposes, Linn-Mar Community School District has included all funds, organizations, agencies, boards, commissions and authorities. The District has also considered all potential component units for which it is financially accountable and other organizations for which the nature and significance of their relationship with the District are such that exclusion would cause the District's financial statements to be misleading or incomplete. The Governmental Accounting Standards Board has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the District to impose its will on that organization or (2) the potential for the organization to provide specific benefits to, or impose specific financial burdens on, the District. Linn-Mar Community School District has no component units which meet the Governmental Accounting Standards Board criteria.

Jointly governed organizations: The District participates in a jointly governed organization that provides services to the District but does not meet the criteria of a joint venture since there is no ongoing financial interest or responsibility by the participating governments. The District is a member of the Linn County Assessors' Conference Board.

Basis of presentation:

District-wide financial statements: The Statement of Net Position and the Statement of Activities report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by tax and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for service.

The Statement of Net Position presents the District's nonfiduciary assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference reported as net position. Net position is reported in three categories:

Net investment in capital assets consists of capital assets, net of accumulated depreciation plus unspent bond proceeds and reduced by outstanding balances for bonds, notes and other debt that are attributed to the acquisition, construction or improvement to those assets.

Restricted net position results when constraints placed on net position use are either externally imposed or imposed by law through constitutional provisions or enabling legislation. Enabling legislation did not result in any restricted net position.

Unrestricted net position consists of net position that does not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management which can be removed or modified.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customer or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants, contributions and interest restricted to meeting the operational or capital requirements of a particular function. Property tax and other items not properly included among program revenues are reported instead as general revenues.

Fund financial statements: Separate financial statements are provided for governmental, proprietary and fiduciary funds, even though the latter are excluded from the District-wide financial statements. The District does not have any fiduciary funds. Major individual governmental funds are reported as separate columns in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor governmental funds. Combining schedules are also included for the Capital Project Fund accounts as well as the nonmajor enterprise funds.

The District reports the following major governmental funds:

The General Fund is the general operating fund of the District. All general tax revenues and other revenues not allocated by law or contractual agreement to some other fund are accounted for in this fund. From the fund are paid the general operating expenditures, including instructional, support and other costs.

The Capital Projects Fund is used to account for all resources used in the acquisition and construction of capital facilities.

The Debt Service Fund is used for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

The District reports the following nonmajor governmental funds:

The Management Levy Fund is used to account for the payment of property and insurance as well as early retirement incentive obligations owed by the District to retirees from prior fiscal years.

The Student Activity Fund is utilized to account for the various student run organizations and athletic accounts operating within the District.

The Public Education and Recreation Levy Fund is utilized to account for the resources used to establish and maintain public recreation places and playgrounds and necessary accommodations for children and adults.

Proprietary fund types are used to account for the District's ongoing organizations and activities which are similar to those often found in the private sector. The measurement focus is upon income determination, financial position, and cash flows. The District has one proprietary fund type. Enterprise funds are used to account for those operations that are financed and operate in a manner similar to private businesses or where the District has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

The District reports nonmajor enterprise funds. The District's nonmajor enterprise funds include the School Nutrition Fund, the Aquatic Center Fund, and the ROAR Store Fund. The School Nutrition Fund is used to account for the food service operations of the District. The Aquatic Center Fund is used to account for the operations of the District's pool activities. The ROAR Store Fund is used to account for student store operations of the District.

Measurement focus and basis of accounting:

The District-wide financial statements and the proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property tax is recognized as revenue in the year for which it is levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been satisfied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days after year-end.

Property tax, intergovernmental revenues (shared revenues, grants and reimbursements from other governments) and interest associated with the current fiscal period are all considered to be susceptible to accrual. All other revenue items are considered to be measurable and available only when the cash is received by the District.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest on long-term debt, claims and judgments, and compensated absences are recognized as expenditures only when payment is due. Capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under term of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there is both restricted and unrestricted net position available to finance the program. It is the District's policy to first apply cost-reimbursement grant resources to such programs, and then general revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, deferred outflows of resources, liabilities, deferred inflows of resources and fund equity:

The following accounting policies are followed in preparing the financial statements:

Cash, pooled investments and cash equivalents: The cash balances of most District funds are pooled and invested. Investments are stated at fair value and non-negotiable certificates of deposit which are stated at amortized cost.

For purposes of the statement of cash flows, all short-term cash investments that are highly liquid are considered to be cash equivalents. Cash equivalents are readily convertible to known amounts of cash, and, at the day of purchase, have maturity date no longer than three months.

Property tax receivable: Property tax in governmental funds is accounted for using the modified accrual basis of accounting. Property tax receivable is recognized in these funds on the levy or lien date, which is the date that the tax asking is certified by the Board of Education. Delinquent property tax receivable represents unpaid taxes for the current and prior years. The succeeding year property tax receivable represents taxes certified by the Board of Education to be collected in the next fiscal year for the purposes set out in the budget for the next fiscal year. By statute, the District is required to certify its budget in April of each year for the subsequent fiscal year. However, by statute, the tax asking and budget certification for the following fiscal year becomes effective on the first day of that year. Although the succeeding year property tax receivable has been recorded the released revenue is deferred in both the government-wide and fund financial statements and will not be recognized as revenue until the year for which it is levied.

Property tax revenue recognized in these funds become due and collectible in September and March of the fiscal year with a 1 1/2 % per month penalty for delinquent payments; is based on January 1, 2017 assessed property valuations; is for the tax accrual period July 1, 2018 through June 30, 2019 and reflects the tax asking contained in the budget certified to the County Board of Supervisors in April, 2018.

Intergovernmental receivables: Intergovernmental receivables represents amounts due from the State of Iowa, various shared revenues, grants and reimbursements from other governments.

Inventories: Inventories are valued at cost using the first-in, first-out method for purchased items and governmental commodities. Inventories of proprietary funds are recorded as expenses when consumed rather than when purchased or received.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 1. Summary of Significant Accounting Policies (Continued)

Capital assets: Capital assets, which include property, machinery, equipment and intangibles acquired after July 1, 1980 are reported in the applicable governmental or business-type activities columns in the government-wide Statement of Net Position. Capital assets are recorded at historical cost. Donated capital assets are recorded at acquisition value at the date of donation. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Capital assets are defined by the District as assets with an initial, individual cost in excess of the following thresholds and established useful lives in excess of two years.

Asset Class	Amount
Land	\$ 2,500
Buildings	2,500
Improvements other than buildings	2,500
Intangibles	175,000
Furniture and equipment:	
School Nutrition Fund equipment	500
Other furniture and equipment	2,500

Land is not depreciated. Buildings, land improvements, machinery and equipment and intangibles, if any, are depreciated/amortized using the straight-line method of depreciation over the following estimated useful lives:

Asset Class	Estimated Useful Lives
Buildings	50 years
Land improvements	20 years
Intangibles	5 - 20 years
Machinery and equipment	5 - 20 years

Deferred outflows of resources: Deferred outflows of resources represent a consumption of net position that applied to a future year(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. Deferred outflows of resources consist of unrecognized items not yet charged to pension expense and other postemployment benefit expense and contributions from the employer after the measurement date but before the end of the District's reporting period.

Pensions: For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Iowa Public Employees' Retirement System (IPERS) and additions to/deductions from IPERS' fiduciary net position have been determined on the same basis as they are reported by IPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 1. Summary of Significant Accounting Policies (Continued)

Salaries and benefits payable: Payroll and related expenditures for contracts corresponding to the current school year, which is payable in July and August, have been accrued as liabilities.

Deferred inflows of resources: Deferred inflows of resources represent an acquisition of net position that applies to future year(s) and will not be recognized as an inflow of resources (revenue) until that time. Although certain revenues are measurable, they are not available. Available means collected within the current year or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Deferred inflows of resources in the governmental fund financial statements represent the amount of assets that have been recognized, but the related revenue has not been recognized since the assets are not collected within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current year. Unavailable revenue in the governmental funds consists of property tax and statewide sales and services tax.

Deferred inflows of resources on the Statement of Net Position consists of succeeding year property tax receivable that will not be recognized as revenue until the year for which it is levied and the unrecognized items not yet charged to pension expense or other postemployment benefit expense.

Unearned revenue: Proprietary funds defer revenue recognition in connection with resources that have been received but not yet earned. Unearned revenues are monies collected for meals that have not yet been served.

Compensated absences: District employees accumulate a limited amount of earned but unused vacation and sick leave for subsequent use or for payment upon termination, death or retirement. A liability is recorded when incurred in the District-wide financial statements. The compensated absences liability has been computed based on rates of pay in effect at June 30, 2019. The compensated absences liability attributable to the governmental activities will be paid primarily by the General Fund.

Long-term liabilities: In the District-wide financial statements, long-term obligations are reported as liabilities in the governmental activities column in the Statement of Net Position.

Fund equity: In the governmental fund financial statements fund balances are classified as follows:

Nonspendable: Balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact.

Restricted: Amounts restricted to specific purposes when constraints placed on the use of the resources are either externally imposed by creditors, grantors or state or federal laws or imposed by law through constitutional provisions or enabling legislation.

Committed: Amounts which can be used only for specific purposes determined pursuant to constraints formally imposed by the Board of Education through resolution approved prior to year-end. Those committed amounts cannot be used for any other purpose unless the Board of Education removes or changes the specified use by taking the same action it employed to commit those amounts.

Assigned: Amounts are not available for appropriation but are set aside for specific purposes in the District's General Fund. The District's Board of Directors authorizes the Chief Executive Officer to assign General Fund balance amounts pursuant to Board Policy 801.4.

Unassigned: All amounts not included in other spendable classifications as well as any deficit fund balance of any other governmental fund is reported as unassigned.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 1. Summary of Significant Accounting Policies (Continued)

The District's flow of funds assumption prescribes that the funds with the highest level of constraint are expended first. When an expenditure is incurred in governmental funds which can be paid using either restricted or unrestricted resources, the District's policy is to first apply the expenditure toward restricted fund balance and then to less restrictive classifications- assigned and then unassigned fund balances.

Net Position: In proprietary funds, fiduciary funds, and government-wide financial statements, net position represents the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources. Net investment in capital assets, consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net investment in capital assets excludes unspent bond proceeds of \$12,089,430. Net position is reported as restricted when there are limitations imposed on their use through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Net position restricted by enabling legislation as of June 30, 2019 consists of \$1,067,117 for categorical funding, \$2,296,859 for management levy purposes, \$953,612 for physical plant and equipment levy, \$476,737 for school infrastructure, \$1,542,648 for other special revenue purposes and \$4,213,238 for debt service.

Net position flow assumption: Sometimes the District will fund outlays for a particular purpose from both restricted (e.g. restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted-net position and unrestricted-net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted-net position to have been depleted before unrestricted-net position is applied.

Estimates: The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 2. Budgets and Budgetary Accounting

Budgets and budgetary control:

The budgetary comparison and related disclosures are reported as Required Supplementary Information based on the program structure of four functional areas as required by state statute for its legally adopted budget.

In accordance with the Code of Iowa, the District's Board of Education annually adopts a single district-wide budget and approves the related appropriations following required public notice and hearing for all funds. The budgets and related appropriations as well as the financial statements are prepared on the modified accrual basis or accrual basis of accounting. The budget may be amended during the year utilizing similar statutorily prescribed procedures.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 2. Budgets and Budgetary Accounting (Continued)

Formal and legal budgetary control for the certified budget is based upon four major classes of disbursements known as functional areas, not by fund. These four functional areas are instruction, support services, non-instructional programs and other expenditures. The Code of Iowa also provides that District disbursements in the General Fund may not exceed the amount authorized by the school finance formula. The Board of Education follows these procedures in establishing budgetary data reflected in the financial statements:

1. In accordance with the Statutes of the State of Iowa, prior to March 15, the Board Secretary submits to the Board of Education a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures or expenses and the means of financing them for the upcoming year, along with estimates for the current year and actual data for the proceeding years. This budget is submitted in summary form, with an administrative control. The legal level of control for the detailed budget is at functional area level.
2. Public hearings are required to be conducted to obtain taxpayer comment.
3. Prior to April 15, the budget is legally enacted through certification by the County Auditor.
4. Management is authorized to transfer budgeted amounts between departments within any functional area; however, any revisions that alter the total expenditures or expenses of any functional are must be approved by the Board of Education.
5. The Board of Education may amend the budget during the year without approval of the Board of Education.
6. Appropriations lapse at the end of each fiscal year.
7. The budget cannot be amended without the approval of the Board of Education.
8. Unexpected budgetary balances lapse at June 30 and are not available to finance expenditures or expenses of the following year.

Note 3. Cash and Pooled Investments

The District is authorized by statute to invest public funds in obligations of the United States government, its agencies and instrumentalities; certificates of deposit or other evidences of deposit at federally insured depository institutions approved by the Board of Education; prime eligible bankers acceptances; certain high rated commercial paper; perfected repurchase agreements; certain registered open-end management investment companies; certain joint investment trusts; and warrants or improvement certificates of a drainage district.

Interest rate risk: The District's investment policy limits the investment of operating funds (funds expected to be expended in the current budget year or within 15 months of receipt) in instruments that mature within 397 days. Funds not identified as operating funds may be invested in investments with maturities longer than 397 days but the maturities shall be consistent with the needs and use of the District and must also conform to any loan covenant investment maturity restrictions. The maturity of the District's position in an external investment pool is based on the average maturity of the pool's investments.

At June 30, 2019 the District had investments in the Iowa School Joint Investment Trust (ISJIT) Government Obligation Portfolio which are valued at amortized costs of \$8,298,650 pursuant to Rule 2a-7 under the investment Company Act of 1940. There were no limitations or restrictions on withdrawals of the ISJIT investments.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 3. Cash and Pooled Investments (Continued)

Credit risk: Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of an investment. This is measured by the assignment of a rating by a nationally recognized rating organization (Standard and Poor's and Moody Investor Services). The District's investment policy does not formally address credit risk.

The investment in the Iowa School Joint Investment was rated AAAM by Standard & Poor's Financial Services, respectively.

Concentration of credit risk: The District's investment policy seeks diversification to reduce overall portfolio risk while attaining market rates of return to enable the District to meet its anticipated cash requirements. The District does not have a policy specific to concentration of credit risk. At June 30, 2019, the District had no investments subject to concentration of credit risk.

Custodial credit risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investments or collateral securities that in in the possession of another party. It is the District's policy to require that time deposits in excess of FDIC insurable limits (\$250,000) be secured by collateral or private insurance to protect public deposits in a single financial institution if it were to default. Chapter 12C of the Code of Iowa requires all District funds be deposited into an approved depository and be either insured or collateralized.

The District's deposits in banks at June 30, 2019 were entirely covered by federal depository insurance or by State Sinking Fund in accordance with Chapter 12C of the Code of Iowa. This Chapter provides for additional assessments against the depositories to ensure that there will be no loss of public funds. The District's investments are held in the name of the District and are not exposed to custodial credit risk.

Restricted cash, cash equivalents and investments is comprised of \$12,094,734 for debt reserve requirements.

Note 4. Interfund Transfers

The detail of interfund transfers for the year ended June 30, 2019 is as follows:

Transfer To	Transfer From	Amount
Nonmajor fund, Student Activity Fund	General Fund	\$ 18,378
Debt Service Fund	Capital Projects Fund; Statewide Sales, Services and Use Tax Account	5,034,294
Debt Service Fund	Capital Projects Fund; Physical Plant & Equipment Levy Account	1,214,928
		<u>\$ 6,267,600</u>

The transfer from the General Fund to the Student Activity Fund was to repay the Student Activity Fund for safety equipment purchased during the year as approved by the Board of Education.

The transfer from the Capital Projects: Statewide Sales, Services and Use Tax Account to the Debt Service Fund was needed for repayment of principal and interest on the District's revenue bond indebtedness as well as for general obligation bond debt relief.

The transfer from the Capital Projects: Physical Plant & Equipment Levy Account to the Debt Service Fund was needed for principal and interest payments on the District's capital loan note indebtedness.

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 5. Capital Assets (Continued)

Depreciation expense was charged by the District to the following functions:

Governmental activities:

Instruction:

Regular	\$	176,216
Special		2,324
Other		111,588

Support services:

Administration		13,949
Operation and maintenance of plant		160,874
Transportation		460,880
Unallocated depreciation		4,752,841

Total governmental activities depreciation expense	\$	<u>5,678,672</u>
--	----	------------------

Business-type activities, food service operations	\$	<u>131,431</u>
---	----	----------------

Note 6. Long-Term Liabilities

A summary of changes in long-term liabilities for the year ended June 30, 2019 is as follows:

	Balance Beginning of Year	Additions	Reductions	Balance End of Year	Due Within One Year
Governmental activities:					
General obligation bonds	\$ 25,000,000	\$ 10,000,000	\$ 2,580,000	\$ 32,420,000	\$ 2,690,000
Premiums on GO bonds	1,325,703	93,303	271,614	1,147,392	-
Discounts on GO bonds	(12,478)	-	(1,134)	(11,344)	-
Revenue bonds	38,150,000	-	2,705,000	35,445,000	2,780,000
Termination benefits	243,379	695,042	243,379	695,042	695,042
Compensated absences	43,057	33,045	43,057	33,045	33,045
Net pension liability	47,371,764	-	1,285,986	46,085,778	-
Net OPEB liability	2,659,329	360,465	-	3,019,794	-
Direct borrowings and direct placements:					
Revenue bonds, Series 2015	8,195,000	-	535,000	7,660,000	545,000
Revenue bonds, Series 2014E	3,145,000	-	260,000	2,885,000	260,000
Capital loan notes	7,945,000	-	1,060,000	6,885,000	1,085,000
Total	<u>\$ 134,065,754</u>	<u>\$ 11,181,855</u>	<u>\$ 8,982,902</u>	<u>\$ 136,264,707</u>	<u>\$ 8,088,087</u>
Business-type activities					
Net pension liability	\$ 1,310,751	\$ -	\$ 35,686	\$ 1,275,065	\$ -
Net OPEB liability	72,671	9,851	-	82,522	-
Total	<u>\$ 1,383,422</u>	<u>\$ 9,851</u>	<u>\$ 35,686</u>	<u>\$ 1,357,587</u>	<u>\$ -</u>

Compensated absences, net pension liability, and net OPEB liability are generally liquidated from the General Fund for governmental activities and the respective enterprise fund for business-type activities.

The Revenue Bonds Series 2015, Revenue Bonds Series 2014E, and Capital Loan Notes are collateralized by the high school project.

Linn-Mar Community School District

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 6. Long-Term Liabilities (Continued)

The District has pledged future statewide sales, services and use tax revenues to repay the bonds issued in March of 2010, October of 2012, June of 2013, October of 2014, and July of 2015. The bonds were issued for the purpose of financing a portion of the costs of several ongoing projects or to refund prior year revenue bond issuances. The bonds are payable solely from the proceeds of the statewide sales, services, and use tax revenues received by the District and are payable through 2030. The bonds are not general obligations of the District. However, the debt is subject to the constitutional debt limitation of the District. Annual principal and interest payments on the bonds are expected to require approximately 78 percent of the statewide sales, services, and use tax revenues. The total principal and interest remaining to be paid on the bonds is \$54,751,492. For the current year, \$3,500,000 of principal and \$1,492,138 of interest was paid on the bonds and total statewide sales, services and use tax revenues were \$7,618,440.

The resolution providing for the issuance of statewide sales, services and use tax revenue bonds include the following provisions:

1. \$3,790,780 of the proceeds from the issuance of revenue bonds have been deposited in reserve accounts at Farmer's State Bank, Marion, Iowa to be used solely for the purpose of paying principal and interest on the bonds if insufficient money is available.
2. All proceeds from the statewide sales, services and use tax will be retained by the District in District bank accounts and be disbursed to the proper paying agents at the time principal and interest payments are due.

Capital loan notes: As of June 30, 2019, the District had capital loan notes outstanding of \$6,885,000, which was issued for capital facility construction/improvements during fiscal year 2016. The capital loan notes will be paid with property taxes collected in the Capital Projects Fund: Physical Plant, and Equipment Levy Account. Details of the District's June 30, 2019 capital loan noted indebtedness is as follows:

Year Ending June 30	Direct Borrowings and Direct Placements				
	Capital Loan Note				
	January 7, 2016				
	Interest Rate	Principal	Interest	Total	
2020	1.95	\$ 1,085,000	\$ 134,258	\$ 1,219,258	
2021	1.95	1,110,000	113,100	1,223,100	
2022	1.95	1,135,000	91,455	1,226,455	
2023	1.95	1,160,000	69,273	1,229,273	
2024	1.95	1,185,000	46,703	1,231,703	
2025	1.95	1,210,000	23,595	1,233,595	
Total		\$ 6,885,000	\$ 478,384	\$ 7,363,384	

On May 21, 2018, the Board of Education approved a resolution to call for a special election on the issuance of \$55,000,000 general obligation school bonds for the purpose of designing and construction two 5th and 6th grade intermediate buildings. On September 21, 2018, the bond issuance passed.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 6. Long-Term Liabilities (Continued)

The District issued \$10,000,000 General Obligation School Bonds, Series 2018 on December 20, 2018. On July 23, 2019, the District issued \$53,580,000 General Obligation School Bonds, Series 2019. The Series 2019 requires semi-annual interest payments on November 1 and May 1 and annual principal payments on May 1 beginning May 1, 2024 through 2039. The Series 2019 bonds have interest rates from 3.0 percent to 5.0 percent.

The bond proceeds, up to \$55,000,000, will be used to construct two new intermediate school buildings. \$8,580,000 of the Series 2019 bonds were used to currently refund the Series 2011A General Obligation Bonds in July 2019.

Legal debt margin: The June 30, 2019 debt outstanding by the District did not exceed its legal debt margin computed as follows:

Total assessed valuation	\$ 3,537,698,090
Debt limit, 5% of total assessed valuation	176,884,905
Amount of debt applicable to debt limit, total bonded debt	86,431,048
Excess of debt limit over bonded debt	\$ 90,453,857

Termination benefits:

The District offered a voluntary early retirement plan to its certified employees and administrators during the year ended June 30, 2019. Eligible employees had to be at least age fifty-five and employees must have completed ten years of service to the District. Employees completed an application which was required to be approved by the Board of Education.

The early retirement incentive for each eligible employee was equal to the employee's base salary calculated by using the fiscal year 2019 regular salary schedule, less any other additional pay, multiplied by 50 percent plus all unused personal days compensated for at the rate of substitute pay (\$120/day) used during the last year of service. Employees could also elect to continue participation in the District's group health insurance plan until age 65 or until insurance is acquired elsewhere. Their participation was at the employee's expense. At June 30, 2019, the District had obligations to nineteen participants with a total liability of \$695,042. The liability will be paid from the nonmajor special revenue fund, Management Levy Fund. The District paid \$243,379 in early retirement benefits to retirees during fiscal year 2019.

Note 7. Pension Plan

Plan Description – IPERS membership is mandatory for employees of the District, except for those covered by another retirement system. Employees of the District are provided with pensions through a cost-sharing multiple employer defined benefit pension plan administered by Iowa Public Employees' Retirement System (IPERS). IPERS issues a stand-alone financial report which is available to the public by mail at 7401 Register Drive P.O. Box 9117, Des Moines, Iowa 50306-9117 or at www.ipers.org.

IPERS benefits are established under Iowa Code chapter 97B and the administrative rules thereunder. Chapter 97B and the administrative rules are the official plan documents. The following brief description is provided for general informational purposes only. Refer to the plan documents for more information.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 7. Pension Plan (Continued)

Pension Benefits – A regular member may retire at normal retirement age and receive monthly benefits without an early-retirement reduction. Normal retirement age is age 65, any time after reaching age 62 with 20 or more years of covered employment, or when the member's years of service plus the member's age at the last birthday equals or exceeds 88, whichever comes first. These qualifications must be met on the member's first month of entitlement to benefits. Members cannot begin receiving retirement benefits before age 55. The formula used to calculate a Regular member's monthly IPERS benefit includes:

- A multiplier based on years of service.
- The member's highest five-year average salary, except members with service before June 30, 2012 will use the highest three-year average salary as of that date if it is greater than the highest five-year average salary.

If a member retires before normal retirement age, the member's monthly retirement benefit will be permanently reduced by an early-retirement reduction. The early-retirement reduction is calculated differently for service earned before and after July 1, 2012. For service earned before July 1, 2012, the reduction is 0.25 percent for each month that the member receives benefits before the member's earliest normal retirement age. For service earned starting July 1, 2012, the reduction is 0.50 percent for each month that the member receives benefits before 65.

Generally, once a member selects a benefit option, a monthly benefit is calculated and remains the same for the rest of the member's lifetime. However, to combat the effects of inflation, retirees who began receiving benefits prior to July 1990 receive a guaranteed dividend with their regular November benefit payments.

Disability and Death Benefits – A vested member who is awarded federal Social Security disability or Railroad Retirement disability benefits is eligible to claim IPERS benefits regardless of age. Disability benefits are not reduced for early retirement. If a member dies before retirement, the member's beneficiary will receive a lifetime annuity or a lump-sum payment equal to the present actuarial value of the member's accrued benefit or calculated with a set formula, whichever is greater. When a member dies after retirement, death benefits depend on the benefit option the member selected at retirement.

Contributions – Contribution rates are established by IPERS following the annual actuarial valuation, which applies IPERS' Contribution Rate Funding Policy and Actuarial Amortization Method. State statute limits the amount rates can increase or decrease each year to 1 percentage point. IPERS Contribution Rate Funding Policy requires that the actuarial contribution rate be determined using the "entry age normal" actuarial cost method and the actuarial assumptions and methods approved by the IPERS Investment Board. The actuarial contribution rate covers normal cost plus the unfunded actuarial liability payment based on a 30-year amortization period. The payment to amortize the unfunded actuarial liability is determined as a level percentage of payroll, based on the Actuarial Amortization Method adopted by the Investment Board.

In fiscal year 2019, pursuant to the required rate, Regular members contributed 6.29 percent of covered payroll and the District contributed 9.44 percent of covered payroll for a total rate of 15.73 percent.

The District's contributions to IPERS for the year ended June 30, 2019 were \$5,512,154.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 7. Pension Plan (Continued)

Net Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions – At June 30, 2019, the District reported a liability of \$47,360,843 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all IPERS participating employers. At June 30, 2018, the District's proportion was 0.748404 percent, which was an increase of .017574 from its proportion measured as of June 30, 2017.

For the year ended June 30, 2019, the District recognized pension expense of \$7,119,913. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 259,672	\$ 1,070,432
Changes of assumptions	6,756,317	-
Net difference between projected and actual earnings on pension plan investments	-	1,301,532
Changes in proportion and differences between District contributions and proportionate share of contributions	1,533,841	8,274
District contributions subsequent to the measurement date	5,512,154	-
Total	\$ 14,061,984	\$ 2,380,238

\$5,512,154 reported as deferred outflows of resources related to pensions resulting from the District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30,	
2020	\$ 3,971,695
2021	2,138,987
2022	(97,798)
2023	149,368
2024	7,340
Thereafter	-
Total	\$ 6,169,592

There were no non-employer contributing entities to IPERS.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 7. Pension Plan (Continued)

Rate of Inflation (effective June 30, 2017)	2.60 percent per annum
Salary Increases (effective June 30, 2017)	3.25 percent to 16.25 percent average, including inflation. Rates vary by membership group.
Investment rate of return (effective June 30, 2017)	7.00 percent per annum, compounded annually, net of pension plan, investment expense, including inflation
Wage growth (effective June 30, 2017)	3.25 percent per annum, based on 2.60 percent inflation and 0.65 percent real wage inflation

The actuarial assumptions used in the June 30, 2018 valuation were based on the results of actuarial experience study dated March 24, 2017 and a demographic study dated June 28, 2018. Mortality rates used in the 2018 valuation were based on the RP-2014 Employee and Healthy Annuitant Tables with MP-2017 generational adjustments

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Asset Allocation	Long-Term Expected Real Rate of Return
Domestic equity	22.0%	6.01%
International equity	15.0%	6.48%
Global smart beta equity	3.0%	6.23%
Core plus fixed income	27.0%	1.97%
Public credit	3.5%	3.93%
Public real assets	7.0%	2.91%
Cash	1.0%	-0.25%
Private equity	11.0%	10.81%
Private real assets	7.5%	4.14%
Private credit	3.0%	3.11%
Total	100%	

Discount Rate – The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the contractually required rate and contributions from the District will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan’s fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 7. Pension Plan (Continued)

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate.

	1% Decrease (6.00%)	Discount Rate (7.00%)	1% Increase (8.00%)
District's proportionate share of the net pension liability	\$ 80,380,867	\$ 47,360,843	\$ 19,661,950

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued IPERS financial report which is available on IPERS' website at www.ipers.org.

Payables to the Pension Plan – At June 30, 2019, the District reported payables to IPERS of \$0 for legally required employer contributions and \$0 for legally required employee contributions withheld from employee wages which had not yet been remitted to IPERS.

Note 8. Other Postemployment Benefits (OPEB)

Plan description: The District's defined benefit OPEB plan, Linn-Mar Community School District Postemployment Plan Other Than Pensions (the Plan), provides postemployment benefits for eligible participants enrolled in its plans. This plan provides medical and prescription drug benefits for eligible employees and retirees and their spouses.

Benefits provided: The medical/prescription drug coverage is provided through a self-insured 28E organization plan with Metro Interagency Insurance Program. Retirees under age 65 pay the same premium for the medical/prescription drug benefit as active employees. The contribution requirements of plan members are established and may be amended by the District. The District currently finances the retiree benefit plan on a pay-as-you-go basis.

The full monthly premium rates as of January 1, 2018 for each plan are as shown below:

Rate Tier	PPO Premier	PPO Choice	HMO Essential	HMO Basic
Single	\$ 568	\$ 516	\$ 421	\$ 315
Family	1,736	1,579	1,288	963

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 8. Other Postemployment Benefits (OPEB) (Continued)

Employees covered by benefit terms: At June 30, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	32
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	926
Total	<u><u>958</u></u>

Total OPEB Liability

The District's total OPEB liability of \$3,102,316 was measured as of June 30, 2019 and was determined by an actuarial valuation as of June 30, 2019.

Actuarial assumptions and other inputs: The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement unless otherwise specified:

Inflation	2.50% per annum
Salary increases	3.50% per annum
Discount rate	3.50% per annum
Retirees' share of benefit-related costs	100%
Health care cost trend rate	6.50%
	The trend rate is reduced by 0.50% each year until reaching the ultimate trend rate of 4.50%

The discount rate was based on the Bond Buyer 20-Bond GO index. Mortality rates were based on the RP-2014 generational table scaled using MP-17 and applied on a gender-specific basis. The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period 2010– 2018.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 8. Other Postemployment Benefits (OPEB) (Continued)

Changes in the Total OPEB Liability

	Increase (Decrease)		
	Total OPEB Liability (a)	Plan Fiduciary Net Position (b)	Net OPEB Liability (a) - (b)
Balance at July 1, 2019	\$ 2,732,000	\$ -	\$ 2,732,000
Changes for the year:			
Service cost	278,769	-	278,769
Interest	114,169	-	114,169
Changes of benefit terms	-	-	-
Differences between expected and actual experience	-	-	-
Changes in assumptions or other inputs	98,643	-	98,643
Benefit payments	(121,265)	-	(121,265)
Net changes	370,316	-	370,316
Balance at June 30, 2019	<u>\$ 3,102,316</u>	<u>\$ -</u>	<u>\$ 3,102,316</u>

There were no changes as a result of changes in benefit terms or differences between expected and actual experience. Changes of assumptions or other inputs reflect a change in the discount rate from 3.87% per annum in 2018 to 3.50% per annum in 2019.

Sensitivity of the total OPEB liability to changes in the discount rate: The following presents the total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current discount rate:

	1% Decrease (2.50%)	Discount Rate (3.50%)	1% Increase (4.50%)
Total OPEB liability	\$ 3,623,316	\$ 3,102,316	\$ 2,685,316

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates: The following presents that total OPEB liability of the District, as well as what the District's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower or 1-percentage point higher than the current healthcare cost trend rates.

	Healthcare Cost Trend Rates		
	1% Decrease (5.50% decreasing to 3.5%)	Trend Rates (6.50% decreasing to 4.5%)	1% Increase (7.50% decreasing to 5.5%)
Total OPEB liability	\$ 2,673,316	\$ 3,102,316	\$ 3,630,316

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 8. Other Postemployment Benefits (OPEB) (Continued)

For the year ended June 30, 2019, the District recognized OPEB expense of \$395,417. At June 30, 2019, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ -	\$ -
Changes of assumptions or other inputs	89,968	58,059
Net difference between projected and actual investments	-	-
Total	\$ 89,968	\$ 58,059

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended June 30:	
2020	\$ 2,479
2021	2,479
2022	2,479
2023	2,479
2024	2,479
Thereafter	19,514
Total	\$ 31,909

Note 9. Risk Management

The District is a member of a joint venture with five other local government units. The joint venture, the Metro Interagency Insurance Program (MIIP), was incorporated in 1990 under a joint powers agreement in accordance with Chapter 28E of the Code of Iowa. The program provides services necessary and appropriate for the establishment, operation and maintenance of an insurance program for employee health and medical claims. MIIP is not intended to function as an insurance company for the participants; rather it is a means of combining the administration of claim and obtaining lower insurance rates from commercial insurance. Although premiums billed to the participants are determined on an actuarial basis, ultimate liability for claims remains with the respective participant and accordingly, the insurance risks are not transferred to MIIP. In the event that the member withdraws from MIIP, the withdrawn members continues to be responsible for its share of cost arising from events occurring when it was a participating member. If the withdrawn member at any time has a negative equity balance, the withdrawn member is immediately liable and obligated to MIIP for that amount.

The Districts contribute to the self-insurance plan an amount equal to 125% of Wellmark Blue Cross/Blue Shield projections of the rating period. The fund reinsures for stop-loss insurance for claims in excess of \$200,000 per year per individual. An insurance carrier is paid an administrative fee to process the claims.

At June 30, 2019, the District is an active member of MIIP and has a positive equity balance of \$7,256,989. The total premium paid into the plan by all six members from July 1, 2018 to June 30, 2019 was approximately \$40,000,000 of which \$6,967,600 was paid by Linn-Mar Community School District.

MIIP issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained by writing to Metro Interagency Insurance Program, 1120 33rd Avenue, SW, Cedar Rapids, Iowa, 52404.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 9. Risk Management (Continued)

In addition, the District is exposed to various risks of loss related to torts, theft, damage to and destruction of assets, errors and omissions, injuries to employees, and natural disasters. These risks are covered by the purchase of commercial insurance. The District assumes liability for any deductibles and claims in excess of coverage limitations. Settled claims from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 10. Area Education Agency

The District is required by the Code of Iowa to budget for its share of special education support, media and educational services provided through the area education agency. The District's actual amount for this purpose totaled \$3,339,090 for the year ended June 30, 2019 and is recorded in the General Fund.

Note 11. Categorical Funding

The District's restricted fund balance for categorical funding at June 30, 2019 is comprised of the following programs:

Program	Amount
Gifted and talented	\$ 85,157
Teacher leadership	260,107
Teacher salary supplement	115,330
Successful progression for early readers	111,832
Professional development	493,586
Market factor incentives	1,105
Total	\$ 1,067,117

Note 12. Construction Commitments

The District has entered into contracts totaling \$62,995,886 for various construction projects throughout the District, including construction of two new junior high schools. As of June 30, 2019, costs of \$5,587,768 had been incurred against these contracts. The remaining balance of \$57,408,118 at June 30, 2019 will be paid as work on the projects progresses.

District Court	69,458	-	69,458
Total state appropriations	177,409	983,129	1,160,538
Federal appropriations			
Title I	254,634	-	254,634
Medicaid	23,778	-	23,778
Special Education- Grants to States, IDEA Part B	30,291	-	30,291
Student Support and Academic Enrichment	27,289	-	27,289
Improving Teacher Quality State Grant	63,772	-	63,772
Career and Technical Education- Basic Grants to States	50,173	-	50,173
Special Education- State Personnel Development Grant	12,756	-	12,756
Total federal appropriations	462,693	-	462,693
Total	\$ 3,323,691	\$ 983,129	\$ 4,306,820

Note 14. Lease Agreements

On June 9, 2014 the District entered into an agreement with De Lange Public Finance LLC to lease forty-three copy machines for sixty months. During the year ended June 30, 2019 the District paid \$54,300 from the Capital Projects Fund: Physical Plant and Equipment Levy Account. As of June 30, 2019, the lease is paid in full.

On July 8, 2019 the District entered into a new agreement with De Lange Public Finance LLC to lease 33 copy machines for monthly payments of \$4,665 over sixty months for payments of \$279,900 of which \$255,183 is principal and \$24,717 is interest.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 15. Tax Abatements

Governmental Accounting Standards Board Statement No. 77 defines tax abatements as a reduction in tax revenues that results from an agreement between one or more governments and an individual or entity in which (a) one or more governments promise to forgo tax revenues to which they are entitled and (b) the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the governments or the citizens of those governments. Property tax revenues of the District were reduced by the following amounts for the year ended June 30, 2019 under tax abatement agreements of other entities:

Entity	Tax Abatement Program	Amount of Tax Abated
City of Marion	Urban renewal and economic development projects	\$ 727,047
City of Robins	Urban renewal and economic development projects	385
City of Cedar Rapids	Urban renewal and economic development projects	79,487

The State of Iowa reimburses the District an amount equivalent to the increment of valuation on which property tax is divided times \$5.40 per \$1,000 of taxable valuation. For the year ended June 30, 2019, this reimbursement amounted to \$314,982.

Note 16. Governmental Accounting Standards Board (GASB) Statements

The District adopted the following statements during the year ended June 30, 2019:

GASB Statement No. 83, Certain Asset Retirement Obligations: This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs.

GASB Statement No. 88, Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements: The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt. This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established. This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

Linn-Mar Community School District

Notes to Basic Financial Statements Year Ended June 30, 2019

Note 16. Governmental Accounting Standards Board (GASB) Statements (Continued)

The implementation of the above statements did not have a material impact to the District's financial statements.

As of June 30, 2019, GASB had issued several statements not yet required to be implemented by the District. The Statements which might impact the District are as follows:

GASB Statement No. 84, *Fiduciary Activities*, issued January 2017, will be effective for the District beginning with its fiscal year ending June 30, 2020. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The focus of the identification criteria established by the Statement is on 1) whether a government is controlling the assets of the fiduciary activity and 2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported as a fiduciary fund in the basic financial statements. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources.

GASB Statement No. 87, *Leases*, issued June 2017, will be effective for the District beginning with its fiscal year ending June 30, 2021. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

GASB Statement No. 89, *Accounting for Interest Cost before the End of a Construction Period*, issued June 2018, will be effective for the District beginning with its fiscal year ending June 30, 2021. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that was previously accounted for in accordance with the requirements of paragraphs 5-22 of Statement No. 62, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or an enterprise fund. This statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

GASB Statement No. 90, *Majority Equity Interest-An Amendment of GASB Statement No. 14 and No. 61*, issued August 2018, will be effective for the District beginning with its fiscal year ending June 30, 2020. The primary objectives of this Statement are to improve consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies the reporting of a majority equity interest. This Statement also requires that a component unit in which a government has a 100 percent equity interest account for its assets, deferred outflows of resources, liabilities and deferred inflows of resources at acquisition value at the date the government acquired the 100 percent equity interest in the component unit.

Linn-Mar Community School District

**Notes to Basic Financial Statements
Year Ended June 30, 2019**

Note 16. Governmental Accounting Standards Board (GASB) Statements (Continued)

GASB Statement No. 91, *Conduit Debt Obligations*, issued May 2019, will be effective for the District beginning with its fiscal year ending June 30, 2022. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements association with conduit debt obligations; and improving required note disclosures. This Statement requires issuers to disclose general information about their conduit debt obligations organized by type of commitment, including the aggregate outstanding principal amount of the issuers' conduit debt obligations and a description of each type of commitment. Issuers that recognize liabilities related to supporting the debt service of conduit debt obligations also should disclose information about the amount recognized and how the liabilities changed during the reporting period.

The District's management has not yet determined the effect these Statements will have on the District's financial statements.

Linn-Mar Community School District

Notes to Required Supplementary Information Year Ended June 30, 2019

Note 1. Budgets and Budgetary Information

This budgetary comparison is presented as Required Supplementary Information in accordance with Governmental Accounting Standards Board Statement No. 41 for governments with significant budgetary perspective differences resulting from not being able to present budgetary comparisons for the General Fund and each major Special Revenue Fund.

In accordance with the Code of Iowa, the Board of Education annually adopts a budget following required public notice and hearing for all funds except internal service, private-purpose trust and agency funds. The budget may be amended during the year utilizing similar statutorily prescribed procedures. The District's budget is prepared on the accrual basis.

Formal and legal budgetary control for the certified budget is based upon four major classes or expenditures known as functions, not by fund or fund type. These four functions are instruction, support services, noninstructional programs and other expenditures. Although the budget document presents function expenditures or expenses by fund, the legal level of control is at the aggregated function level, not by fund. The Code of Iowa also provides that District expenditures in the General Fund may not exceed the amount authorized by the school finance formula. The District adopted one budget amendment increasing budget expenditures by \$2,250,000.

Note 2. Pension Liability

Changes of benefit terms: Legislation passed in 2010 modified benefit terms for current Regular members. The definition of final average salary changed from the highest three to the highest five years of covered wages. The vesting requirement changed from four years of service to seven years. The early retirement reduction increased from 3 percent per year measured from the member's first unreduced retirement age to a 6 percent reduction for each year of retirement before age 65.

Changes of assumptions:

The 2018 valuation implemented the following refinements as a result of a demographic assumption study dated June 28, 2018:

- Changed mortality assumptions to the RP-2014 mortality tables with mortality improvements modeled using Scale MP-2017
- Adjusted retirement rates
- Lowered disability rates
- Adjusted the probability of a vested Regular member electing to receive a deferred benefit.
- Adjusted the merit component of the salary increase assumption.

The 2017 valuation implemented the following refinements as a result of an experience study dated March 24, 2017:

- Decreased the inflation assumption from 3.00% to 2.60%.
- Decreased the assumed rate of interest on member accounts from 3.75% to 3.50% per year.
- Decreased the discount rate from 7.50% to 7.00%.
- Decreased the wage growth assumption from 4.00% to 3.25%.
- Decreased the payroll growth assumption from 4.00% to 3.25%.

Linn-Mar Community School District

**Notes to Required Supplementary Information
Year Ended June 30, 2019**

Note 2. Pension Liability (Continued)

The 2014 valuation implemented the following refinements as a result of quadrennial experience study:

- Decreased the inflation assumption from 3.25 percent to 3.00 percent.
- Decreased the assumed rate of interest on member accounts from 4.00 percent to 3.75 percent per year.
- Adjusted male mortality rates for retirees in the Regular membership group.
- Reduced retirement rates for sheriffs and deputies between the ages of 55 and 64.
- Moved from an open 30-year amortization period to a closed 30-year amortization period for the UAL beginning June 30, 2014. Each year thereafter, changes in the UAL from plan experience will be amortized on a separate closed 20-year period.

The 2010 valuation implemented the following refinements as a result of a quadrennial experience study:

- Adjusted retiree mortality assumptions.
- Modified retirement rates to reflect fewer retirements.
- Lowered disability rates at most ages.
- Lowered employment termination rates.
- Generally increased the probability of terminating members receiving a deferred retirement benefit.
- Modified salary increase assumptions based on various service duration

Source: Linn County Auditor

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the district. This process recognizes that, when considering the district's ability to issue and repay long-term debt, the entire burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.

* The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

Notes: Over time some of the buildings capacity have actually decreased due to the inclusion of additional special programs

^a Excelsior Middle School opened back in 1995 as an intermediate school and was added onto 1999 and converted into a middle school.

^b The High school started out as two separate buildings; the high school and junior high. Over time they were both added onto and are now one large building.

^c With the opening of Echo Hill elementary school at the start of the 2008-2009 school year, Oak Ridge school was converted from a PreK-8 school to a middle school.

2009-2010	5,172,928	58,883,970	8.78%

* Financial Solvency Ratio =
$$\frac{\text{Unassigned \& Assigned General Fund Balance}}{\text{Actual Revenues}}$$

The financial solvency ratio measures movement and distribution of current assets. The financial solvency ratio represents a school district's year end position after payment of all current and outstanding or accrued liabilities.

Ranges utilized are:

TARGETED SOLVENCY POSITION:

Financial Solvency Ratio ranging from 5% to 10% of actual revenues. A school district is able to meet unforeseen financing requirements and presents a sound risk for the timely repayment of short-term obligations.

ACCEPTABLE SOLVENCY POSITION:

Financial Solvency Ratio ranging from 0% to 4.99% of actual revenues. Fund balance is considered adequate for short-term credit purposes as long as other local economic trends, such as property tax collections and enrollment are sound.

SOLVENCY ALERT:

A solvency alert exists if the school corporation has a negative solvency ratio up to -3.0% of actual revenues. A negative solvency position in this range warrants prompt management response but could be caused by operating revenue/expenditure fluctuations within one budget year.

SOLVENCY CONCERN:

A solvency concern exists if the school corporation has a negative solvency ratio in excess of -3.0% of actual revenues.

Linn-Mar Community School District

**Notes to Schedule of Expenditures of Federal Awards
Year Ended June 30, 2019**

Note 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Linn-Mar Community School District under programs of the federal government for the year ended June 30, 2019. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position or cash flows of the District.

Note 2. Significant Accounting Policies

Expenditures reported on the schedule of expenditures of federal awards are reported on the modified accrual or accrual basis of accounting based on the fund type of the program. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Revenue from federal awards is recognized when the District has done everything necessary to establish its right to revenue. For governmental funds, revenue from federal awards is recognized when it is both measurable and available. Expenditures of federal awards are recognized in the accounting period when the liability is incurred.

Note 3. Indirect Cost Rate

The District has elected not to use the 10-percent de minimus indirect cost rate allowed under the Uniform Guidance.

**Independent Auditor's Report on Internal Control Over
Financial Reporting and on Compliance and Other Matters
Based on an Audit of Financial Statements Performed in
Accordance With *Government Auditing Standards***

To the Board of Education
Linn-Mar Community School District
Marion, Iowa

We have audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Linn-Mar Community School District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 19, 2019.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Linn-Mar Community School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Linn-Mar Community School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Linn-Mar Community School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies, and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control described in the accompanying Schedule of Findings and Questioned Costs as items 2019-001 and 2019-002 that we consider to be significant deficiencies.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Linn-Mar Community School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain immaterial instances of noncompliance or other matters which are described in Part IV of the accompanying Schedule of Findings and Questions Costs.

Comments involving statutory and other legal matters about Linn-Mar Community School District's operations for the year ended June 30, 2019 are based exclusively on knowledge obtained from procedures performed during our audit of the financial statements of the District. Since our audit was based on tests and samples, not all transactions that might have had an impact on the comments were necessarily audited. The comments involving statutory and other legal matters are not intended to constitute legal interpretations of those statutes.

Linn-Mar Community School District's Responses to Findings

Linn-Mar Community School District's responses to the findings identified in our audit are described in the accompanying Schedule of Findings and Questioned Costs. Linn-Mar Community School District's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor’s Report on Compliance For Each Major Federal Program and On Internal Control Over Compliance Required by the Uniform Guidance

To the Board of Education
Linn-Mar Community School District
Marion, Iowa

Report on Compliance for Each Major Federal Program

We have audited Linn-Mar Community School District’s (the District) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the District’s major federal programs for the year ended June 30, 2019. The District’s major federal programs are identified in the summary of auditor’s results section of the accompanying Schedule of Findings and Questioned Costs.

Management’s Responsibility

Management is responsible for compliance with the federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor’s Responsibility

Our responsibility is to express an opinion on compliance for each of the District’s major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the District’s compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control Over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Linn-Mar Community School District

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2019**

Part II: Findings Related to the Basic Financial Statements

Instances of noncompliance:

No matters were reported.

Internal control deficiencies:

2019-001

Finding: The District has insufficient segregation of duties over the payroll process.

Condition: Employees that process payroll also have access to change the employee master file, including entering new employees, modifying pay rates and adding deductions as well as access to enter time to the payroll system, process the payroll and generate payroll checks and direct deposits. This position also posts the payroll to the general ledger.

Context: A good internal control contemplates an adequate segregation of duties so that no one individual handles a transaction from inception to its completion.

Effect: Misappropriations of assets or errors could occur and not be detected in a timely basis.

Cause: A limited number of personnel are involved in the payroll function.

Recommendation: Any position responsible for processing the payroll should be segregated from the ability to make employee master file changes. We recommend the District remove all access to the employee master file from the payroll office employees and require the Human Resources Department to make all payroll master file employee changes. Alternatively, we provide the following recommendations to strengthen the District's internal control system:

- The District should determine if the payroll system could include an approval process for pay rate changes including number of pays in the system whereby if one payroll accounting clerk entered the change the other payroll accounting clerk could approve the change in the system before the change could be made.
- The District should determine if a payroll change/edit report can be automatically generated from the payroll system every payroll. This report should list all changes made to the employee master files as well as extra pays or leave time added for the pay period. The changes on this report should be routinely reviewed by a position independent from the payroll processing position. The edit report should be signed by the employee performing the review and maintained.
- A position independent from the payroll process should print the checks, denote check sequence and sort the checks and direct deposit advices according to departments.

Response and Corrective Action Plan: The District will review current processes and realign duties and system access levels to improve internal controls within the design of the payroll system.

Linn-Mar Community School District

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2019**

2019-002

Finding: The District has insufficient segregation of duties over the disbursement process.

Condition: Employees that process disbursements also have access to edit the vendor master file, generate quick purchase orders, generate the checks, and prepare and upload the positive pay file to the bank.

Context: A good internal control contemplates an adequate segregation of duties so that no one individual handles a transaction from inception to its completion.

Effect: Misappropriations of assets or errors could occur and not be detected in a timely basis.

Cause: A limited number of personnel are involved in the disbursement function.

Recommendation: In general, authorization of new vendors, entering invoices into the accounting system, and processing of checks should be segregated from each other. We provide the following recommendations to strengthen the District's internal control system:

- We recommend the District remove the access to the vendor master file and remove access to generate quick purchase orders from employees processing invoices.
- We recommend that check sequence be formally logged and tracked by someone independent of the cash disbursement function to ensure all checks are appropriately approved and accounted for. Any gaps in sequence should be investigated and documented. The person accounting for check sequence should also ensure that all checks accounted for are listed on the listing sent to the Board for review each month, including any manual checks written between Board meetings or payroll deduction checks written on expenditure check stock.

Response and Corrective Action Plan: The District will review current processes and realign duties and system access levels to improve internal controls within the design of the disbursement system.

Part III: Findings and Questioned Costs for Federal Awards

Instances of noncompliance:

No matters were reported.

Internal control deficiencies:

No matters were reported.

Linn-Mar Community School District

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2019**

Part IV: Other Findings Related to Statutory Reporting

IV-A-19

Certified Budget- Expenditures for the year ended June 30, 2019 did not exceed the amounts budgeted at year-end.

IV-B-19

Questionable Expenditures – No expenditures were noted that we believe may not meet the requirements of public purpose as defined in an Attorney General's opinion dated April 25, 1979.

IV-C-19

Travel Expense – No expenditures of District money for travel expenses of spouses of District officials or employees were noted. No travel advances to District officials or employees were noted.

IV-D-19

Business Transactions – No business transactions between the District and District officials or employees were noted except for the following:

<u>Official</u>	<u>Transaction Description</u>	<u>Amount</u>
Clark Weaver, Board Member	Substitute teaching	\$894

In accordance with the Attorney General's opinion dated November 9, 1976, the above transaction does not appear to represent a conflict of interest.

IV-E-19

Bond Coverage – Surety bond coverage of District officials and employees is in accordance with statutory provisions. The amount of coverage should be reviewed annually to insure that the coverage is adequate for current operations.

IV-F-19

Board Minutes – No transactions requiring Board approval which had not been approved by the Board were noted.

IV-G-19

Certified Enrollment

Finding: The Department of Management identified variances in certified enrollment certified to the state in October 2018.

Recommendation: We recommend the District review certified enrollment data prior to submission to ensure accuracy of the information certified to the state.

Response and Corrective Action Plan: The District will continue to review data prior to submission.

Conclusion: Response accepted.

Linn-Mar Community School District

**Schedule of Findings and Questioned Costs
Year Ended June 30, 2019**

IV-H-19

Supplementary Weighting- No variances regarding the supplementary weighting certified to the Iowa Department of Education were noted.

IV-I-19

Deposits and Investments – No instances of noncompliance with the deposit and investment provisions of Chapter 12B and Chapter 12C of the Code of Iowa and the District's investment policy were noted.

IV-J-19

Certified Annual Report – The Certified Annual Report was certified to the Iowa Department of Education timely.

IV-K-19

Categorical Funding – No instances were noted of categorical funding being used to supplant rather than supplement other funds.

IV-L-19

Statewide Sales and Services Tax – No instances of noncompliance with the use of the statewide sales and services tax revenue provisions of Chapter 423F.3 of the Code of Iowa were noted.

Pursuant to Chapter 423F.5 of the Code of Iowa, the annual audit is required to include certain reporting elements related to the statewide sales and services tax revenue. Districts are required to include these reporting elements in the Certified Annual Report (CAR) submitted to the Iowa Department of Education. For the year ended June 30, 2019, the District did not reduce tax levies as a result of the moneys received under Chapter 423E or 423F of the Code of Iowa.

Beginning balance	\$	5,859,473
Revenue / transfers in:		
Statewide sales and services tax revenue		7,618,440
Transfers in/other		86,624
Expenditures/transfers out:		
Transfers out		(5,034,294)
Capital outlay for facilities and property and equipment		(3,023,349)
Ending balance	\$	<u>5,506,894</u>
