

Linn-Mar Community School District

Communication Guide for Addressing Questions and Concerns

The Linn-Mar Community School District recognizes that situations may arise where parents and community members have questions or concerns that need to be addressed. We strongly believe that all concerns are best dealt with using open communication and should be discussed by first talking with your student. This guide outlines the chain of communication for addressing concerns in the most efficient and effective manner.

If after speaking with the involved staff member the issue has not been resolved, the individual may bring the concern to their immediate supervisor. The chart below will help determine who should be contacted next when and if further discussion is warranted. It should be noted if the concern involves the ethical behavior of a staff member or an individual's safety is compromised, the concern can be initially directed to the employee's immediate supervisor.

*Refer to the next page for specific contact information.

***Report bullying and immediate safety concerns to the building principal.**
